**Abstract.** We present an updated, subjective list of the extant, non-marine ostracod genera and species of the world, with their distributions in the major zoogeographical regions, as well as a list of the genera in their present hierarchical taxonomic positions. The list includes all taxa described and taxonomic alterations made up to 1 July 2018. Taxonomic changes include 17 new combinations, 5 new names, 1 emended specific name and 11 new synonymies (1 tribe, 4 genera, 6 species). Taking into account the recognized synonymies, there are presently 2330 subjective species of non-marine ostracods in 270 genera. The most diverse family in non-marine habitats is the Cyprididae, comprising 43.2% of all species, followed by the Candonidae (29.0%), Entocytheridae (9.1%) and the Limnocytheridae (7.0%). An additional 13 families comprise the remaining 11.8% of described species. The Palaearctic zoogeographical region has the greatest number of described species (799), followed by the Afrotropical region with 453 species and the Nearctic region with 439 species. The Australasian and Neotropical regions each have 328 and 333 recorded species, respectively, while the Oriental region has 271. The vast majority of non-marine ostracods (89.8%) are endemic to one zoogeographical region, while only six species are found in six or more regions. We also present an additional list with ‘uncertain species’, which have neither been redescribed nor re-assessed since 1912, and which are excluded from the main list; a list of taxonomic changes presented in the present paper; a table with the number of species and % per family; and a table with numbers of new species described in the 20-year period between 1998 and 2017 per zoogeographical region. Two figures visualize the total number of species and endemic species per zoogeographical region, and the numbers of new species descriptions per decade for all families and the three largest families since 1770, respectively.

**Key words.** Ostracoda, distribution, biodiversity, taxonomy, nomenclature.

Meisch C., Smith R.J. & Martens K. 2019. A subjective global checklist of the extant non-marine Ostracoda (Crustacea). *European Journal of Taxonomy* 492: 1–135. <https://doi.org/10.5852/ejt.2019/492>

## Introduction

The present checklist is an expanded, updated and corrected version of the list published by Martens & Savatenalinton (2011), which included all the extant free-living non-marine species of ostracods described up to 2008. The present list is expanded to include the species of the Entocytheridae Hoff, 1942, which live as epibionts on the body and appendages of other crustaceans, including crayfish, crabs, amphipods and isopods (Hart & Hart 1974; Mestre *et al.* 2014; Williams & Weaver 2018). The present list is also updated, as it now includes all taxa described and all taxonomic alterations, as well as all faunistic records made up to 1 July 2018. The present list also corrects earlier omissions and errors. In addition, some further taxonomic decisions are taken here and briefly commented on regarding new combinations of species and genus names, new synonymies and new names, when it became apparent that such changes were necessary.

## Material and methods

The checklist by Martens & Savatenalinton (2011) was rather inclusive, also containing poorly-known species of the 18<sup>th</sup> and above all the 19<sup>th</sup> centuries. For the present list, the comprehensive synopsis of the Ostracoda of the world by G.W. Müller (1912, reprint of 1966) is used as a taxonomic filter: the species already considered of dubious status therein and, for most of them, unrecorded since their first description, are discarded from the present list. They are moved to a separate list with short remarks on their taxonomic status. *Candona lactea* (Baird, 1850) and *Potamocypris helicina* (Fischer, 1847) are examples of the application of this filter. G.W. Müller (*op. cit.*) commented on the first of these species as: “larva?”. His remark about the second species reads: “insufficient description of a known species?”. Exceptions are made for those species which, although retained by the filter, were studied and redescribed after 1912.

For synonymies proposed after 1912, the same guideline already used in the previous checklist (Martens & Savatenalinton 2011) is applied: synonymies should preferably be based on investigations of type (or at least topotypical) material or on descriptions only if they are exhaustive and detailed. Furthermore, as a rule, proposed synonymies that stretch over two or more zoogeographical regions are not adopted in the list. An example is the proposed synonymy of *Candona inexpecta* Chapman, 1963 from New Zealand (AU) and *Pseudocandona albicans* (Brady, 1864) from the Palaearctic (Karanovic 2005).

The distinction between non-marine and marine species is mostly quite straightforward. However, in some specific cases doubts are justified. The present list generally follows the same criteria as applied by Martens *et al.* (2008) and Martens & Savatenalinton (2011): (1) if a species is included in the compendiums of non-marine ostracods (Kempf 1980a–d, 1997a–d, 2006) it is accepted here as a non-marine species, unless otherwise indicated; (2) the definition of brackish water species follows the introductory chapter of the ‘Freshwater Animal Diversity Assessment’ (Balian *et al.* 2008), i.e., “only the true non-marine fauna from interface environments (estuaries, anchialine ponds) are included and euryhaline species are included if they show a genuine tolerance to freshwater (salinity < 3 g/l).”

Trinomina either represent subspecies or varieties (or forms). To distinguish between these two clearly different taxonomic entities (see Article 45 of the International Code of Zoological Nomenclature, ICZN) the following rule is applied: trinomina of subspecies remain unmarked, while those of varieties and forms are marked with ‘var.’ or ‘f.’, respectively. In many cases, subspecies will eventually turn out to be valid species. This could be the case for most of the subspecies described from Lake Baikal (Mazepova

1990). It should be noted that, unlike names of subspecies, names of varieties are not regulated by the ICZN, with the exception, however, of those introduced before 1961 (Article 45.5–45.6 of the ICZN).

The main part of this checklist, the alphabetic list of genera and species, provides the following information:

- valid species and genus names, with author(s) and year of both the original description and, if applicable, the currently accepted generic combination.
- the original generic combination of species, if different from the present one.
- bibliographic references for synonyms of species.
- trinomina for subspecies and varieties or forms, the former unmarked, the latter marked with ‘var.’ and ‘f.’, respectively.
- a list of synonyms of genera and species.
- type species of genera as marked with an ‘\*’.

Occurrence of species in zoogeographical regions: the borders of the different regions are as described and illustrated in Balian *et al.* (2008), but with the boundary between the PA and NA regions through the Bering Strait and in the North Pacific adjusted, as in Fig. 1.

With regard to the zoogeographical information, the following abbreviations apply:

ANT	= Antarctic
AT	= Afrotropical
AU	= Australasian
NA	= Nearctic
NT	= Neotropical
OL	= Oriental
PA	= Palaearctic
PAC	= Pacific Oceanic Islands

## Results

The checklist contains 2330 subjective species (not counting subspecies and varieties) of extant, non-marine Ostracoda of the world, in 270 genera, 17 families and four superfamilies (Table 2). The majority of the species belong to the superfamily Cypridoidea (75.5%), followed by the Cytheroidea (22.8%) and Darwinuloidea (1.5%) (Table 2). The most diverse family in non-marine habitats is the Cyprididae, comprising 43.2% of all species, followed by the Candonidae (29.0%), Entocytheridae (9.1%) and the Limnocytheridae (7.0%) (Table 2). The other 13 families comprise the remaining 11.8% of the species, and of these, eight are primarily marine families with restricted numbers of non-marine representatives. *Candona* is the most diverse genus with 145 species, followed by *Strandesia* (97), *Pseudocandona* (72) and *Cypridopsis* (66). Eighty-two genera (30.4%) are monospecific. Two hundred and thirty species (9.9% of the total) have at least one synonym, while 722 species (31.0%) have been transferred to different genera at least once since their initial descriptions (Table 2).

Fifty-nine species have been excluded from the main list as ‘uncertain species’. We present 17 new combinations, 5 new names, 1 emended specific name and 11 new synonymies (1 tribe, 4 genera, 6 species) (Table 1). Numbers of non-marine species/subspecies and percentages of total number in superfamilies and families are given in Table 2. Numbers of new species described in the 20-year period between 1998 and 2017 in the different zoogeographical regions are presented in Table 3. Figure 1 shows the numbers of non-marine ostracod species reported in each zoogeographical region, with endemic species in parentheses (top), and proportions of species in non-marine families in each region (bottom). Figure 2 shows numbers of new species of non-marine ostracods described per decade for all families and for the largest three families.

**Taxonomic notes** (synopsis in Table 1)

- (1) The tribe Danielocandonini Karanovic, 2007 is not adopted here for the following reasons: (a) the genera included are morphologically very diverse, with some of the characters almost certainly being the result of convergent evolution and (b) the tribe stretches, with large geographical gaps, from the Caribbean realm (genus *Danielocandona* Broodbakker, 1983) to Africa (genus *Meischcandona* Karanovic, 2007) and Australia (genera *Deminutiocandona* Karanovic, 2003, *Kencandona* Karanovic, 2007 and *Leicacandona* Karanovic, 2007).
- (2) The treatment of the genera *Typhlocypris* Vejdovský, 1882, *Pseudocandona* Kaufmann, 1900 and *Marmocandona* Danielopol *et al.*, 2012 follows Danielopol *et al.* (2012) and Namotko *et al.* (2014).
- (3) The genus *Neglecandona* Krstić, 2007, with *Neglecandona lindneri* (Petkovski, 1969) as the type species, was established to include the species of the so-called *neglecta*-group of *Candona* Baird, 1845. Although the genus appears sound and accurately diagnosed (Krstić 2006; Medici *et al.* 2011), its specific content appears incomplete at present, with only three species of the *neglecta*-group having so far been formally transferred to *Neglecandona*. As this needs to be discussed elsewhere, no attempt is made here to transfer any other species of the *neglecta*-group to that genus.
- (4) *Cypris subglobosa* Sowerby, 1840 was first described from fossil material recovered from Upper Cretaceous sediments. However, it is now well known that the Recent species commonly recorded as *C. subglobosa* is not identical with the fossil taxon with the same name (Whatley *et al.* 2003; Smith *et al.* 2011). The specimens of the exclusively fossil species have been reassigned to the genus *Paracyppretta* as *Paracyppretta subglobosa* (Sowerby, 1840) (Whatley *et al.* 2003). Klie (1932) showed that the extant species is identical with *Cypris granulata* Daday, 1898, which therefore becomes the valid name for this extant, circumtropical species (Martens & Toguebaye 1985).
- (5) The genus *Candonocypris* Sars, 1894 is diagnosed, among others, by a spatulate terminal Mx1-palp segment and two so-called ‘f’-setae on the cleaning leg (L7, T3) (Martens 2001a, 2001b; Karanovic 2012). From this, it follows that a number of species commonly assigned to *Candonocypris* do not belong there: *C. deeveyi* Tressler, 1954, *C. pascheri* (Brehm, 1923) and *C. pugionis* Furtos, 1936 carry one single f-seta on their cleaning leg, while *C. fitzroyi* McKenzie, 1966 has a cylindrical terminal segment on its Mx1-palp. *Candonocypris pugionis* fits into the genus *Trajancypris* and is here transferred to that genus (see below). As no other genus is readily available for the other species, they are provisionally kept in *Candonocypris*, but are here flagged as needing a new genus assignment.
- (6) The genus *Cyclocypria* Dobbin, 1941 was introduced for the single species *Cyclocypria kincaidia* Dobbin, 1941, described from the USA. The genus has remained monospecific up to the present. Dobbin Evenson (1969) considered her original description of *kincaidia* (Dobbin 1941) to apply to a “late instar of *Cyclocypria kincaidia*”, thus implicitly introducing the synonymy of *Cyclocypria* with *Cyclocypria* Brady & Norman, 1889. This view is followed here.
- (7) *Cypria ophtalmica* (Jurine, 1820) and *Cypria lacustris* Lilljeborg, 1890:
- (a) When describing *Cypria lacustris*, Sars (1890) mentioned that he relied on the description of the species in an unpublished manuscript by Lilljeborg. We here follow Kempf (1980a–d) who lists the species with Lilljeborg as being the author: *Cypria lacustris* Lilljeborg, 1890 (in Sars 1890).
  - (b) *Cypria lacustris* is usually considered an intraspecific form, without a formal taxonomic status of its own, of *Cypria ophtalmica* because of the occurrence of animals with transitional characters, mainly seen in the number and structure of the female genital processes (Meisch 2000: 217). From the examination, in recent years, of a very large number of individuals belonging to both ‘forms’ from various regions in Europe, one of us (CM) could not confirm the occurrence of ‘transitional’

animals. Furthermore, the ecology differs: *Cypria lacustris* almost exclusively colonizes springs, waters connected to springs and the profundal zone of lakes, while *Cypria ophtalmica* occurs in ponds and the littoral zone of lakes. The rare ‘transitional’ individuals recorded in the literature might be the result of very occasional hybridisation between two separate species, though this needs to be confirmed, preferably with molecular methods. In conclusion, *Cypria lacustris* is listed as a valid species in the present list.

(8) *Cypria sywulai* Meisch, 2000 (emendation of name): This species was originally described as *Cypria ophtalmica* var. *lata* Sywula, 1981. The variety was subsequently elevated to species rank as *Cypria lata* Meisch & Forró, 1998. When the latter name was shown to be preoccupied by *Cypria lata* (Dubowsky, 1929) by Kovalenko (1987) (= *Cypria curvifurcata* var. *lata* Dubowsky, 1929), Sywula’s species was renamed as *Cypria sywulae* Meisch, 2000, in honour of the Polish ostracodologist Tadeusz Sywula. The ending in ‘ae’, however, is incorrect and therefore the specific name is here corrected as *Cypria sywulai* Meisch, 2000, in compliance with article 31.1.2 of the ICZN (the ending in ‘ae’ is for a woman, ‘i’ for a man).

(9) Martens (2001) revised the taxonomy of the subfamily Herpetocypridinae Kaufmann, 1900, and placed the genera *Parastenocypris* Hartmann, 1964 and *Gesa* Hartmann, 1964 into the synonymy of the genus *Chrissia* Hartmann, 1957. Here, we also assign species of *Parastenocypris* and *Gesa* to *Chrissia* for which the ‘new combination’ was not expressly designated.

(10) The species of *Neocypridopsis* Klie, 1940, a genus originally placed in the subfamily Cypridopsinae of Cyprididae, lack the pincer organ on their cleaning legs (L7/T3), a structure that characterises the entire family. *Neocypridopsis* therefore most probably does not belong there. The phylogenetic position of *Neocypridopsis* needs to be clarified through detailed morphological and genetical analyses. Meanwhile, the genus is here provisionally kept in Cypridopsinae.

(11) *Bradleytriebella tuberculata* (Hartmann, 1964): *Strandesia tuberculata* Hartmann, 1964, originally described from India, is a junior homonym of *Strandesia tuberculata* (Sharpe, 1908) (Hartmann & Petersen 1985), the latter so far only recorded from the USA. Consequently, Hartmann & Petersen (1985) renamed the species of Hartmann (1964) as *Strandesia antetuberculata* Hartmann & Petersen, 1985 nom. nov. More recently, Savatenalinton & Martens (2009a) transferred Hartmann’s species into the newly erected genus *Bradleytriebella* and assigned it the status of type species of the new genus. The species is listed here with its original specific name and the current generic assignment as *Bradleytriebella tuberculata* (Hartmann, 1964), with *Strandesia antetuberculata* Hartmann & Petersen, 1985 as a synonym.

(12) *Eucypris* Vávra, 1891 and *Candocyprinotus* Delorme, 1970: Smith & Horne (2016) mention *Candocyprinotus* Delorme, 1970 as a possible junior synonym of *Eucypris*. As this synonymy needs to be further investigated, *Candocyprinotus*, with one single species, is maintained here as a separate genus.

(13) *Heterocypris congregera* (Vávra, 1897) and *Hemicypris congregera* (Vávra, 1897) sensu Daday 1910 nec Vávra 1897: Martens (1984) recognized that the redescription of *Cyprinotus congregera* Vávra, 1897 provided by Daday (1910) actually applies to a different and still undescribed species, which he provisionally listed as *Hemicypris congregera* (Daday, 1910). The latter name, however, is not valid in the sense of the ICZN and therefore Daday’s (1910) species needs to be formally redescribed with the status of a ‘new’ species. As this is beyond the scope of the present work, the species of Daday (1910) is listed as mentioned in the paragraph title above.

**Table 1** (continued on next page). Taxonomic changes. New combinations, new names, emendation of name and new synonymies.

New combinations
1. <i>Fabaformiscandona alchichica</i> (Cohuo <i>et al.</i> , 2017) <b>comb. nov.</b> <i>Candona alchichica</i> Cohuo <i>et al.</i> , 2017
2. <i>Fabaformiscandona thienemanni</i> (Klie, 1932) <b>comb. nov.</b> <i>Candona thienemanni</i> Klie, 1932
3. <i>Heterocypris chetumalensis</i> (Yoo <i>et al.</i> , 2017) <b>comb. nov.</b> <i>Manuelcypris chetumalensis</i> Yoo <i>et al.</i> , 2017
4. <i>Heterocypris cisternina</i> (Furtos, 1936) <b>comb. nov.</b> <i>Eucypris cisternina</i> Furtos, 1936
5. <i>Heterocypris tabascena</i> (Yoo <i>et al.</i> , 2017) <b>comb. nov.</b> <i>Manuelcypris tabascena</i> Yoo <i>et al.</i> , 2017
6. <i>Physocypria ivanae</i> (Díaz & Lopretto, 2011) <b>comb. nov.</b> <i>Keysercypria ivanae</i> Díaz & Lopretto, 2011
7. <i>Physocypria pelagica</i> (Brehm, 1932) <b>comb. nov.</b> <i>Cypria pelagica</i> Brehm, 1932
8. <i>Plesiocypridopsis brachychaeta</i> (Goins, 1972) <b>comb. nov.</b> <i>Potamocypris brachychaeta</i> Goins, 1972
9. <i>Plesiocypridopsis maduraiensis</i> (Victor & Michael, 1975) <b>comb. nov.</b> <i>Cypridopsis maduraiensis</i> Victor & Michael, 1975
10. <i>Pseudocandona arcuata</i> (Klie, 1932) <b>comb. nov.</b> <i>Candona arcuata</i> Klie, 1932
11. <i>Pseudocandona choi</i> (Karanovic & Lee, 2012) <b>comb. nov.</b> <i>Typhlocypris choi</i> Karanovic & Lee, 2012
12. <i>Pseudocandona pedropalensis</i> (Méhes, 1914) <b>comb. nov.</b> <i>Candona pedropalensis</i> Méhes, 1914
13. <i>Pseudocandona vasconica</i> (Margalef, 1946) <b>comb. nov.</b> <i>Candona vasconica</i> (Margalef, 1946)
14. <i>Strandesia gibbosa</i> (Baird, 1838) <b>comb. nov.</b> <i>Sataracypris gibbosa</i> (Baird, 1838)
15. <i>Strandesia longiforma</i> (Dobbin, 1941) <b>comb. nov.</b> <i>Prionocypris longiforma</i> Dobbin, 1941
16. <i>Tonnacypris strigata</i> (O.F. Müller, 1776) <b>comb. nov.</b> <i>Cypris strigata</i> O.F. Müller, 1776
17. <i>Trajancypris pugionis</i> (Furtos, 1936) <b>comb. nov.</b> <i>Candonocypris pugionis</i> Furtos, 1936
New names
1. <i>Candona galinae</i> <b>nom. nov.</b> Junior homonym: <i>Candona rara</i> Mazepova, 1990
2. <i>Candona maloemorensis</i> <b>nom. nov.</b> Junior homonym: <i>Candona intermedia</i> Bronstein, 1947
3. <i>Candona mazepovae</i> <b>nom. nov.</b> Junior homonym: <i>Candona procera</i> Mazepova, 1982
4. <i>Cyclocypris klughi</i> <b>nom. nov.</b> Junior homonym: <i>Cyclocypris castanea</i> Klugh, 1923
5. <i>Strandesia hulkopensis</i> <b>nom. nov.</b> Junior homonym: <i>Strandesia hartmanni</i> Mannikeri & Vaidya, 1990

**Table 1** (continued).

Emendation of name
1. <i>Cypria sywulai</i> Meisch, 2000 <i>Cypria sywulae</i> Meisch, 2000
New synonymies
1. <i>Trapezicandonini</i> Karanovic, 2007 <i>Mixtacandonini</i> Karanovic & Lee, 2012 <b>syn. nov.</b>
2. <i>Baicalocandona</i> Mazepova, 1976 (partim), <i>Candona</i> Baird, 1845 (partim) <i>Mazepovacandona</i> Karanovic & Sitnikova, 2017 <b>syn. nov.</b>
3. <i>Cypria</i> Zenker, 1854 (partim), <i>Physocypria</i> Vávra, 1897 (partim) <i>Keysercypria</i> Karanovic, 2011 <b>syn. nov.</b>
4. <i>Heterocypris</i> Claus, 1892 <i>Manuelcypris</i> Yoo et al., 2017 <b>syn. nov.</b>
5. <i>Strandesia</i> Stuhlmann, 1888 <i>Sataracypris</i> Deb, 1983 <b>syn. nov.</b>
6. <i>Bradleytriebella tuberculata</i> (Hartmann, 1964) Savatenalinton & Martens 2009a <i>Strandesia antetuberculata</i> Hartmann & Petersen, 1985 <b>syn. nov.</b>
7. <i>Cypris pubera</i> O.F. Müller, 1776 <i>Cypris pubera anacantha</i> Daday, 1900 <b>syn. nov.</b> <i>Cypris pubera diacantha</i> Daday, 1900 <b>syn. nov.</b> <i>Cypris pubera monacantha</i> Daday, 1900 <b>syn. nov.</b> <i>Cypris pubera polyacantha</i> Daday, 1892 <b>syn. nov.</b> <i>Cypris pubera triacantha</i> Daday, 1900 <b>syn. nov.</b>
8. <i>Eucypris virens</i> (Jurine, 1820) <i>Eucypris obtusa</i> G.W. Müller, 1900 <b>syn. nov.</b> <i>Eucypris helocrenica</i> Fuhrmann & Goth, 2011 <b>syn. nov.</b>
9. <i>Herpetocypris chevreuxi</i> (Sars, 1896) <i>Herpetocypris romei</i> Anichini, 1967 <b>syn. nov.</b>
10. <i>Physocypria pelagica</i> (Brehm, 1932) <b>comb. nov.</b> <i>Cypria petenensis</i> Ferguson et al., 1964 non Klie, 1932 <b>syn. nov.</b>
11. <i>Pseudocandona insculpta</i> (G.W. Müller, 1900) <i>Pseudocandona vasconica</i> (Margalef, 1953) <b>syn. nov.</b>

(14) *Physocypria koenikei* (Daday, 1910) sensu Martens 1982: both the Zenker's organ, with numerous whorls of spines, and the hemipenis of this species appear similar to those seen in the Cyprididae rather than the Cyclocypridinae of the Candonidae, to which the genus *Physocypria* belongs (Karanovic 2011). However, as no cypridid genus is readily available, the species is here provisionally kept in *Physocypria* but is flagged as needing a new generic assignment.

(15) *Riocypris* Klie, 1935: *Riocypris* was erected for the single species *R. uruguayensis* Klie, 1935, described from Uruguay. The genus remained monospecific until Karanovic (2008) described *R. hinzeae* from Australia, additionally transferring the following two species to *Riocypris*: *R. fitzroyi* (McKenzie, 1966), formerly assigned to *Candonocypris*, and *R. fontana* (Graf, 1931), previously allocated to *Eucypris*. More recently, Díaz & Martens (2014) transferred *E. fontana* into the newly erected genus *Argentocypris* Díaz & Martens, 2014. For reasons of both the differences in the structure of the carapace and biogeographic occurrence, the latter authors (op. cit.) expressed their doubts whether the West

**Table 2.** Numbers of non-marine species/subspecies and percentages of total number of species in superfamilies and families. \*indicates primarily marine families with non-marine representatives.

Superfamilies	No. of species	% of total no. of species	Families	No. of species	% of total no. of species

Terrestricytheroidea	4	0.2%	Darwinulidae	35	1.5%
			Terrestricytheridae	4	0.2%

Australian *R. hinzeae* and the South American *R. uruguayensis* would be congeneric. We follow Díaz & Martens (2014) and only provisionally keep *R. hinzeae* in the genus *Riocypris*. As for *R. fitzroyi*, it is here reallocated to *Candonocypris*.

### New combinations and transfers

(1) *Fabaeformiscandona alchichica* (Cohuo *et al.*, 2017) **comb. nov.**

*Candona alchichica* Cohuo *et al.*, 2017 was assigned to the *acuminata* group of *Candona* by Cohuo *et al.* (2017a), a species group that now ranks within the genus *Fabaeformiscandona* sensu Danielopol (1973) and Meisch (2000). The species is therefore here transferred in the latter genus.

(2) *Fabaeformiscandona thienemanni* (Klie, 1932) **comb. nov.**

In the original description of *Candona thienemanni* Klie, 1932, illustrations of the carapace in both lateral and dorsal views show that this species belongs to *Fabaeformiscandona* sensu Meisch (2000), into which the species is here transferred.

(3) *Heterocypris chetumalensis* (Yoo *et al.*, 2017) **comb. nov.** and *Heterocypris tabascena* (Yoo *et al.*, 2017) **comb. nov.**

With *Manuelcypris* Yoo *et al.*, 2017 considered herein to be a junior synonym of *Heterocypris* (see below under New Synonymies for details), these two species are transferred to the genus *Heterocypris*.

(4) *Heterocypris cisternina* (Furtos, 1936) **comb. nov.**

Yoo *et al.* (2017) noted that the fifth limb of the type specimens of *Eucypris cisternina* Furtos, 1936 lacks the so-called ‘c’-seta, which characterises the genus *Eucypris* as diagnosed by Martens (1989) and transferred the species to the newly erected genus *Manuelcypris* Yoo *et al.*, 2017. In general, *E. cisternina* rather perfectly fits the diagnosis of the genus *Heterocypris*, except, however, for the absence of marginal tubercles on the right valve. Considering that these tubercles are known to be poorly developed or even missing in some populations of *Heterocypris* – see, for instance, *Heterocypris salina* (Brady, 1968) (Meisch 2000: 355) – the species is here tentatively transferred to the latter genus.

(5) *Physocypria ivanae* (Díaz & Lopretto, 2011) **comb. nov.**

Following the synonymy of *Keysercypria* with *Cypria* and *Physocypria* (see below under New Synonymies for details), *Keysercypria ivanae* Díaz & Lopretto, 2011 is here provisionally transferred to *Physocypria*. However, the original description indicates that this species has tubercles on both valves, so its generic position needs to be revised.

(6) *Physocypria pelagica* (Brehm, 1932) **comb. nov.**

There is much confusion surrounding *Cypria pelagica* Brehm, 1932 – here referred to as *Physocypria pelagica* (Brehm, 1932) **comb. nov.** – known from Central America, and *Cypria pelagica* Klie, 1932, recorded from Indonesia and India. The taxonomic history of both species is briefly described here. *Cypria pelagica* Brehm, 1932 was rudimentarily described from Lake Petén Itzá in Guatemala, with a more detailed description presented later by the same author (Brehm 1932, 1939). Ferguson *et al.* (1964) argued that the original description of *Cypria pelagica* Brehm was insufficient and therefore considered – but incorrectly so – the name of Brehm (1932) a *nomen nudum* and consequently introduced a new name for the species: *Cypria petenensis* Ferguson *et al.*, 1964. More recently, upon examining topotype specimens of *Cypria pelagica* from Lake Petén Itzá, Pérez *et al.* (2010) and Cohuo *et al.* (Online Resource 1 of 2017b) emphasized the presence of marginal tubercles on the right valve, which is a character of the genus *Physocypria* sensu Meisch (2000). The species is therefore here transferred to the latter genus as *Physocypria pelagica* (Brehm, 1932) **comb. nov.** Martens & Savatenalinton (2011) pointed out that *Cypria pelagica* Brehm, 1932 has priority over its homonym *Cypria pelagica* Klie, 1932 – originally described as *Cypria javana pelagica* Klie, 1932 – and consequently introduced a new name for the latter species, *Cypria kliei* Martens & Savatenalinton, 2011, which is therefore the valid name of that species.

(7) *Plesiocypridopsis brachychaeta* (Goins, 1972) **comb. nov.** and *Plesiocypridopsis maduraiensis* (Victor & Michael, 1975) **comb. nov.**

*Potamocypris brachychaeta* Goins, 1972, described from Indiana, USA, and *Cypridopsis maduraiensis* Victor & Michael, 1975, known from India, were described as having uropodal rami with cylindrical stems, which is a unique character of the genus *Plesiocypridopsis* (the ramus is triangularly shaped in all other genera of Cypridopsinae; see Meisch 2000). Both species are therefore here transferred to the genus *Plesiocypridopsis* (Rome, 1965).

(8) *Pseudocandona arcuata* (Klie, 1932) **comb. nov.**

*Candona arcuata* Klie, 1932, described from the island of Java, Indonesia, was provisionally allocated by Klie (1932) to the *rostrata* group of *Candona*, a species group now placed within *Pseudocandona* (sensu Meisch 2000; Namiotko *et al.* 2014). The presence of three setae (d1, d2 and dp) on the protopodite of the cleaning leg (Klie 1932: fig. 14) confirms that it belongs to *Pseudocandona*. The species is therefore here transferred to that genus.

(9) *Pseudocandona choi* (Karanovic & Lee, 2012) **comb. nov.**

*Typhlocypris choi* Karanovic & Lee, 2012, which was described from South Korea, belongs to *Pseudocandona* sensu Meisch (2000), and is here transferred to this genus.

(10) *Pseudocandona pedropalensis* (Méhes, 1914) **comb. nov.**

*Candona pedropalensis* Méhes, 1914 was ranked within the *caribbeana* species group (Karanovic 2005), which now belongs to *Pseudocandona* sensu Meisch (2000). The species is here transferred to that genus.

(11) *Pseudocandona vasconica* (Margalef, 1946) **comb. nov.**

*Candona vasconica* (Margalef, 1946), first described as *Candona neglecta* var. *vasconica* from northwestern Spain and thus far unrecorded elsewhere, was elevated to species rank by Margalef (1953). Only females were found. The relatively small carapace size (females: 0.91–0.93 mm) and the carapace shape in lateral view (Margalef 1946: pl. 2:1) clearly point towards a species of the genus *Pseudocandona*. The species is transferred to this genus and is also tentatively listed as a synonym of *Pseudocandona insculpta* (G.W. Müller, 1900) (see below).

(12) *Ramotha crassa* (Klie, 1929)

One of us (KM) checked old notes and is no longer convinced that *Strandesia crassa* Klie, 1939 belongs to *Bradleystrandesia* as in Martens & Savatenalinton (2011). The species is here moved back to *Ramotha* as in Martens (1992).

(13) *Strandesia gibbosa* (Baird, 1838) **comb. nov.**

The genus *Sataracypris* Deb, 1983 was erected to include the single species *Cypris gibbosa* Baird, 1838, which is characterized by the presence of a conspicuous dorsal hump on both valves. Savatenalinton (2015) pointed out that a similar hump is also seen in *Strandesia martensi* Savatenalinton, 2015 and that both species therefore probably belong to the same lineage within *Strandesia* s. lat. *Sataracypris gibbosa* is here tentatively transferred to the genus *Strandesia*. The presence/absence of the so-called Triebel's loop on the attachment of the uropodal ramus – a character that remains undescribed in *S. gibbosa* – should confirm or invalidate the new combination proposed here.

(14) *Strandesia longiforma* (Dobbin, 1941) **comb. nov.**

This species was first described as *Prionocypris longiforma* Dobbin, 1941. The seminiferous tubules of the males are spirally enrolled in the anterior area of the valves (Dobbin 1941) and the attachment of the uropodal ramus carries a so-called Triebel's loop (Matzke-Karasz *et al.* 2014). Both characters are diagnostic of the subfamily Cypricercinae of the family Cyprididae. Külköylüoğlu & Vinyard (2000) recorded the species as *Prionocypris* (*Strandesia*) *longiforma*. The species is here formally, although tentatively, transferred to the genus *Strandesia* s. lat.

(15) *Tonnacypris strigata* (O.F. Müller, 1776) **comb. nov.**

*Cypris strigata* O.F. Müller, 1776 was recorded under its junior synonym *Cypris lutaria* Koch, 1838, with various generic assignments, mainly as *Eucypris lutaria* (Koch, 1838) – now *Tonnacypris lutaria* – in all major synopses after 1900 (Alm 1915; Sars 1925; Klie 1938a; Bronstein 1947; Meisch 2000). The species is here formally transferred to *Tonnacypris* as *Tonnacypris strigata* (O.F. Müller, 1776) **comb. nov.** This species is an unused older synonym of *T. lutaria* (Koch, 1838), which, for reasons of nomenclatural stability, we recommend not be revived. It is thus listed here as *Tonnacypris lutaria*.

(16) *Trajancypris pugionis* (Furtos, 1936) **comb. nov.**

This species, which was originally described as *Candonocypris pugionis* Furtos, 1936, has a cleaning leg with one single f-seta and therefore does not belong to the genus *Candonocypris* (there are two

such setae in *Candonocypris* – see above). Relying on the detailed original description of the species by Furtos (1936b), it is here transferred to the genus *Trajancypris* Martens, 1989.

### New names

(1) *Candona galinae* nom. nov.

*Candona rara* Mazepova, 1990 is a junior homonym of *Candona rara* G.W. Müller, 1900. The species of Mazepova (1990) is here renamed as *Candona galinae* nom. nov., the new specific name being derived from that author's first name.

(2) *Candona maloemorensis* nom. nov.

*Candona intermedia* Bronstein, 1947, described from Lake Baikal and only known from there, is a junior homonym of *Candona intermedia* Furtos, 1933, known from North America. The Baikal species is here renamed as *Candona maloemorensis* nom. nov., the specific name being derived from the Maloe More (Малое Мопе in Russian, in English literally *the Small Sea*), a strait in Lake Baikal where part of the type material was collected and which is of high relevance for the speciation of many Baikalian organisms.

(3) *Candona mazepovae* nom. nov.

*Candona procera* Straub, 1952, a fossil species described from Germany (Straub 1952, Tertiary) and Italy (Devoto 1965, Pleistocene) has nomenclatural priority over *Candona procera* Mazepova, 1982, an extant species described from Lake Baikal. The latter species is renamed here as *Candona mazepovae* nom. nov.

(4) *Cyclocypris klughi* nom. nov.

*Cyclocypris castanea* Klugh, 1923 is a junior homonym of *Cyclocypris castanea* Brady, 1913. The species of Klugh (1923) is here renamed as *Cyclocypris klughi* nom. nov.

(5) *Strandesia hulkopensis* nom. nov.

*Strandesia hartmanni* Mannikeri & Vaidya, 1990 is a junior homonym of *Strandesia hartmanni* Victor et al., 1980, both described from India. The former species is here renamed as *Strandesia hulkopensis* nom. nov., the specific name being derived from the name of the pond south of the Indian city of Dharwad from which the type material was collected.

### New synonymies

(1) *Trapezicandonini* Karanovic, 2007 and *Mixtacandonini* Karanovic & Lee, 2012

There has been some nomenclatural confusion about the genera *Mixtacandona* Klie, 1938 and *Trapezicandona* Schornikov, 1969 and the names of tribes derived from those two genera. The generic name *Mixtacandona* was proposed conditionally – but with a clear diagnosis – by Klie (1938b) for *Candona laisi* Klie, 1938, and therefore has priority over *Trapezicandona* Schornikov, 1969 (Namiotko & Danielopol 2002). However, according to Article 40.1 of the ICBN, the validity of family-group names, to which tribe names belong, is not affected by the synonymy of type genera. Herein we synonymize the two tribes and conclude that *Trapezicandonini* Karanovic, 2007 has priority over *Mixtacandonini* Karanovic & Lee, 2012.

(2) *Baicalocandona* Mazepova, 1976, *Candona* Baird, 1845 and *Mazepovacandona* Karanovic & Sitnikova, 2017

The genus *Mazepovacandona* Karanovic & Sitnikova, 2017 – type species: *Candona directa* Bronstein, 1947 – was recently erected for five previously known candonine species endemic to Lake Baikal. For various reasons, including its rather large morphological diversity, the genus is not accepted here. The five species are listed with Mazepova's original assignments in the list of synonyms of each of the

species in question, and *Mazepovacandona* is partly synonymized with *Baicalocandona* and partly with *Candona*.

(3) *Cypria* Zenker, 1854, *Physocypria* Vávra, 1897 and *Keysercypria* Karanovic, 2011

The species of the genera *Cypria* Zenker, 1854 and *Physocypria* Vávra, 1897 were recently rearranged, in parallel with the erection of the genus *Keysercypria* Karanovic, 2011 for a number of species extracted from *Cypria* and *Physocypria* (Karanovic 2011, 2012). This approach uses as defining characters for the two original genera (a) the presence (*Physocypria*) / absence (*Cypria*) of the d2-seta on the walking leg and (b) the direction the ovary curve, up (*Cypria*) or down (*Physocypria*). The usage of these characters, as well as those used for the definition of the genus *Keysercypria*, produces genera that appear otherwise morphologically very diverse. Also, these characters cannot be seen in both living and fossil specimens. We conclude that there is no good phylogenetic reason at this stage to prefer the soft part characters over the traditional presence (*Physocypria*) or absence (*Cypria*) of marginal tubercles on the right valve, which is easily observable in both living and fossil specimens. A conservative approach is therefore adopted here, which follows the definitions of the genera *Cypria* and *Physocypria* as presented, for instance, by Meisch (2000) and we treat *Keysercypria* partly as a junior synonym of *Cypria* and partly as a junior synonym of *Physocypria*. Species that were allocated to *Keysercypria* by Karanovic (2011) are listed under their previous combinations (see also above).

(4) *Heterocypris* Claus, 1892 and *Manuelcypris* Yoo *et al.*, 2017

The diagnosis of *Manuelcypris* Yoo *et al.*, 2017 is broad, and species have been assigned to this genus inconsistently. For instance, both *Heterocypris punctata* Keyser, 1975 and *Heterocypris antillensis* Broodbakker, 1982, transferred to *Manuelcypris* by Yoo *et al.* (2017), have setae on the first segment (protopodite) of the sixth limb (Broodbakker 1982: 220, 223) and therefore do not fit the diagnosis of *Manuelcypris*. Other species in the genus appear to have little to unite them morphologically and the molecular analysis of Yoo *et al.* (2017) does not at all support the validity of the genus. In consequence, the genus is not used here, and we consider it a synonym of *Heterocypris*. Existing species are returned to their previous genus, *Heterocypris*, and the new species in Yoo *et al.* (2017) are here transferred from *Manuelcypris* to *Heterocypris* (see New combinations and transfers section for more details).

(5) *Strandesia* Stuhlmann, 1888 and *Sataracypris* Deb, 1983

The type species of the monospecific genus *Sataracypris* Deb, 1983, *Sataracypris gibbosa* (Baird, 1838), is tentatively transferred to the genus *Strandesia* Stuhlmann, 1888 (see above for details). *Sataracypris* therefore becomes a junior synonym of *Strandesia*.

(6) *Cypris pubera* O.F. Müller, 1776

Daday (1892, 1900) described the following five varieties of *Cypris pubera*, mainly in relation to the presence/absence and development of posteroventral marginal spines of the right valve: *anacantha* (absence of spines), *monacantha* (one single spine), *diacantha* (two spines), *triacantha* (three spines) and *polyacantha* (more than three spines). We consider these varieties – which were not retained in any of the subsequent faunistic synopses (e.g., G.W. Müller 1912; Klie 1938a; Farkas 1958; Henderson 1990; Meisch 2000) – to express the morphological variability of the species and they are therefore listed here as synonyms of the main form. Daday (1900) does not mention the variety *triaculeata* of *C. pubera*, which he had described eight years earlier (Daday 1892). The latter variety was raised to species rank by Fuhrmann & Pietrzeniuk (1990), mainly based on the difference in the posteroventral spines of the right valve. However, we here consider *triarticulata* to rank within the variability range of *Cypris pubera*, a variation that is indeed to be expected in a species that reproduces almost entirely parthenogenetically (males of *C. pubera* are so far only known from one site in Turkey; Schäfer 1952). *Cypris triaculeata* sensu Fuhrmann & Pietrzeniuk 1990 is therefore listed as a synonym of *Cypris pubera*.

(7) *Eucypris virens* (Jurine, 1820), *Eucypris obtusa* Fuhrmann & Goth, 2011 and *Eucypris helocrenica* Fuhrmann & Goth, 2011

*Eucypris virens* is known to be highly variable in carapace shape (G.W. Müller 1900; Tétart 1985; Meisch 2000) and to consist of a complex of at least 40 and potentially as many as 60 or more so-called cryptic, morphologically unrecognizable ‘genetic species’ (Bode *et al.* 2010; Koenders *et al.* 2012). For that reason and awaiting further morphological and genetical studies, the following two species, which differ from *E. virens* only in small differences in the shape of the carapace and valves, are placed in the list of synonyms of *E. virens*: *Eucypris obtusa* Fuhrmann & Goth, 2011 (syn.: *Eucypris virens* var. *obtusa* G.W. Müller, 1900) and *E. helocrenica* Fuhrmann & Goth, 2011.

(8) *Herpetocypris chevreuxi* (Sars, 1896) and *Herpetocypris romei* Anichini, 1967

Taking into account the morphological variation that is to be expected in a species that reproduces parthenogenetically (males of *H. chevreuxi* have so far never been found), the detailed original description of *H. romei* rather perfectly complies with the description of *Herpetocypris chevreuxi*. *H. romei* is therefore put in synonymy with *H. chevreuxi*.

(9) *Mixtacandona talianae* Gliozzi & Mazzini, 1998 and *Mixtacandona italica* Karanovic & Pesce, 2001

The possible synonymy of these species has previously been suggested by Krstić (2006) and Mazzini *et al.* (2017). Upon comparing the detailed descriptions of both species, the synonymy is here confirmed.

(10) *Physocypria pelagica* (Brehm, 1932) **comb. nov.** and *Cypria petenensis* Ferguson *et al.*, 1964 **syn. nov.** non Klie 1932

As noted above, the replacement name *Cypria petenensis* Ferguson *et al.*, 1964 for *Physocypria pelagica* (Brehm, 1932) by Ferguson *et al.* (1964) was unnecessary, and so herein it is considered to be a junior synonym. See section above under *Physocypria pelagica* (Brehm, 1932) **comb. nov.** for more details.

(11) *Pseudocandona insculpta* (G.W. Müller, 1900) and *Pseudocandona vasconica* (Margalef, 1946)

The original description of *Candona neglecta* var. *vasconica* mentions a small distal “appendage” on the anterior side of the penultimate A2 segment, which obviously is the reduced G2-claw that characterizes the female antennae of *Ps. insculpta* and *Ps. compressa*. The shallow valve pits reported by Margalef (1946) tend to indicate that he either dealt with adults of *Ps. insculpta* or with late juveniles of *Ps. compressa*. The species is here transferred to *Pseudocandona* (see above) and tentatively listed as a synonym of *Pseudocandona insculpta* (G.W. Müller, 1900).

### Uncertain generic assignments

As already pointed out by Karanovic (2012: 476), the following three species assigned to *Eucypris* do not belong there: *E. areguensis* Daday, 1905, *E. trapezoides* Hartmann, 1962 and *E. afghanistanensis* Hartmann, 1964. Indeed, the posterior seta of the uropodal ramus appears claw-like and stands close to the terminal claws, a character that excludes these species from *Eucypris* and is diagnostic for part of the species of the subfamily Herpetocypridinae. However, as this demands a detailed taxonomic analysis, the three species are provisionally listed under *Eucypris*.

### Uncertain species

*Candona detecta* (O.F. Müller, 1776) Baird, 1845. The original description of this species is very poor and lacks illustrations. In his redescription of the species, the same author (O.F. Müller 1785) mentions and illustrates a uropodal ramus with a posterior seta.

Daday (1900) considered *C. detecta* to be identical to *Candonopsis kingsleii* (Brady & Robertson, 1870). However, the presence of a posterior uropodal seta precludes this species belonging to the genus *Candonopsis* Vávra, 1891 (fide Karanovic & Marmonier 2002).

G.W. Müller (1912) considered *Candonia detecta* to be identical to *Candonia protzi* Hartwig, 1898, now *Fabaeformiscandonia protzi* (Hartwig, 1898). Sars (1925) pointed out that *C. detecta* may be a juvenile of *Candonia caudata* Kaufmann, 1900, now *Fabaeformiscandonia caudata* (Kaufmann, 1900). The inclusion of *C. detecta* in the genus *Fabaeformiscandonia* Krstić, 1972 appears sound to us and we therefore propose the formal transfer of the species into that genus: *Fabaeformiscandonia detecta* (O.F. Müller, 1776) **comb. nov.** Being an uncertain species, because it is presently unrecognizable, *F. detecta* is listed as such.

#### Species and genera removed from the main list

*Cythereis rivulorum* Rome, 1943, described from a river in Belgium and later transferred to the monospecific genus *Romeis* Sywula, 1970, was shown to represent a marine species inadvertently introduced into a freshwater sample (Meisch 2000). Both the genus and species are therefore removed from the present world list of non-marine species.

#### Biogeography

To date, the PA region, with 799 species, is the most speciose of all regions, followed by the AT with 453 species and the NA with 439 species (Fig. 1). The proportions of families in each region varies considerably, with Cyprididae constituting 74.5% of species in the OL, 67.8% in the AT and 56.8% in the NT, but only 27.3% and 29.7% in the NA and PA, respectively. Of the 439 species recorded from the NA, 172 (39.2%) are entocytherids, a family commensal on other crustaceans, typically crayfish. The entocytherids in the NA represent 81.1% of all species known in this family, and their high diversity in this region mirrors the high diversity of crayfish in North America (Crandall & Buhay 2008). Two thousand and ninety-two species (89.8%) are currently known from one zoogeographical region only, suggesting a very high rate of endemism at this level. No species have been reported from all regions, while only six, *Cypretta turgida* (Sars, 1896), *Cypridopsis vidua* (O.F. Müller, 1776), *Heterocypris incongruens* (Ramdohr, 1808), *Stenocypris major* (Baird, 1859), *Darwinula stevensoni* (Brady & Robertson, 1870) and *Penthesilena brasiliensis* (Pinto & Kotzian, 1961), have been reported from six or seven regions, and can be considered cosmopolitan.

#### History of research and recent trends

The first non-marine ostracods were named and described in 1776 (O.F. Müller 1776), but for the next 11 decades the number of new descriptions remained very low (Fig. 2). There was a notable increase in species descriptions in the 1890s, and since then 100 species or more have been described per decade. The most productive decade in terms of new species described was the 1960s, with 338 new species, followed by the 1980s (246 species) and the 1930s (238 species) (Fig. 2).

The Cyprididae and Candonidae are the two largest families, totalling 1681 species, with the Candonidae representing 40.2%. For most decades, the number of Candonidae described was below this ratio, with the exception of the 1940s (61.2%) and the last three decades (44.5 to 78.3%). The large relative increase in Candonidae research in the 1940s can be attributed to the book by Bronstein (1947) on ostracods from the former USSR. Since 1990, there were proportionally more new Candonidae described compared with before 1990, with the exception of the 1940s, indicating that recent taxonomic research has generally focused more on the Candonidae and less on the Cyprididae. This is probably due to more recent research on ancient lakes and groundwaters, both of which tend to contain high diversities of Candonidae (e.g., Danielopol & Hartmann 1986; Mazepova 1990; Martens 1994; Karanovic 2007; Smith & Janz 2008). There was a notable peak in descriptions of entocytherid ostracods during the 1960s and 70s, with 73.1% (155 species) of the entire family being described during this 20-year period (Fig. 2). From the 1980s onwards, only 16 species have been added.

In the 20-year period from 1998 to 2017, 377 new species of non-marine ostracods were described (Table 3). Sixty-eight percent of these were from the PA and AU regions combined (28.6% and 39.3% respectively), while over the same period the numbers of new species described from the other regions have been much lower. The NA is notable for the low numbers of new species (10 species) discovered there over the last 20 years, forming only 2.7% of the global total of new species during this time period and 2.3% of the region's known fauna. In contrast, new species found in the AU since 1998 form 45.1% of the entire known non-marine ostracod fauna from that region, while for the PA the figure is 13.6%. Whether this reflects a true difference in underlying diversity of the NA compared with other regions or is a result of diminishing research efforts in the NA over the last 20 years is currently unclear.

**Fig. 1.** Numbers of non-marine ostracod species reported in each zoogeographical region, endemic species in parentheses, and proportions of species in non-marine families in each region. Abbreviations: Cy = Cyprididae; Ca = Candonidae; En = Entocytheridae; Li = Limnocytheridae; Ot = other families. Sizes of pie charts are proportional to the number of species reported from each region.

**Table 3.** Numbers of new species described in the 20-year period between 1998 and 2017 in the different zoogeographical regions.

Region	New species described 1998 to 2017	% of total of each region	% of total of new species 1998 to 2017
AT	31	6.8	8.2
AU	148	45.1	39.3
NA	10	2.3	2.7
NT	40	12.2	10.6

**Fig. 2.** Numbers of new species of non-marine ostracods described per decade for all families and the three largest families.

***The hierarchical taxonomic position of the extant genera of non-marine Ostracoda***

Class Ostracoda Latreille, 1802

Subclass Podocopa Sars, 1866

Order Podocopida Sars, 1866

**Suborder Cypridocopina Baird, 1845**

**Superfamily Cypridoidea Baird, 1845**

**Family Cyprididae Baird, 1845**

**Subfamily Batucypprettinae Victor & Fernando, 1981**

*Batucyppreta* Victor & Fernando, 1981

**Subfamily Bennelongiinae Martens *et al.*, 2012**

*Bennelongia* De Deckker & McKenzie, 1981

**Subfamily Bradyocypridinae Hartmann & Puri, 1974**

*BradyCypris* Sars, 1925

*Paracyppreta* Sars, 1924

*Zonocyppreta* De Deckker, 1981

**Subfamily Callistocypridinae Schornikov, 1980**

*Callistocypris* Schornikov, 1980

**Subfamily Cyprettinae Hartmann, 1971**

*Cypretta* Vávra, 1895

*Pseudocyppreta* Klie, 1932

**Subfamily Cypricercinae McKenzie, 1971**

**Tribe Bradleystrandesiini Savatenalinton & Martens, 2009**

*Bradleystrandesia* Broodbakker, 1983

*Bradleytriebella* Savatenalinton & Martens, 2009

*Spirocyparis* Sharpe, 1903

**Tribe Cypricercini McKenzie, 1971**

*Bradleycypris* McKenzie, 1982

*Cypricercus* Sars, 1895

*Pseudostrandesia* Savatenalinton & Martens, 2009

*Strandesia* Stuhlmann, 1888

**Tribe Nealecypridini Savatenalinton & Martens, 2009**

*Astenocypris* G.W. Müller, 1912

*Diaphanocypris* Würdig & Pinto, 1990

*Nealecypris* Savatenalinton & Martens, 2009

*Tanycypris* Triebel, 1959

**Subfamily Cypridinae Baird, 1845**

*Alboa* De Deckker, 1981

*Chlamydotheca* Saussure, 1858

*Cypris* O.F. Müller, 1776

*Globocypris* Klie, 1939

*Mnementh* Martens, 2007

*Neocypridella* Vávra, 1895

*Pseudocypris* Daday, 1910

*Ramotha* Martens, 1992

**Subfamily Cypridopsinae Kaufmann, 1900**

**Tribe Cypridopsini Kaufmann, 1900**

*Astrocypridopsis* McKenzie, 1982

*Bryocypris* Røen, 1956

*Cavernocypris* Hartmann, 1964

- Cypridopsis* Brady, 1867  
*Kapcypridopsis* McKenzie, 1977  
*Klieopsis* Martens *et al.*, 1991  
*Martenscypridopsis* Karanovic & Pesce, 2000  
*Neocypridopsis* Klie, 1940  
*Plesiocypridopsis* Rome, 1965  
*Pseudocypridopsis* Karanovic, 1999  
*Sarscypridopsis* McKenzie, 1977  
*Siamopsis* Savatenalinton, 2017  
*Tanganyikacypridopsis* Martens, 1985  
*Thermopsis* Külköylüoglu *et al.*, 2003  
*Tungucypridopsis* Victor, 1983
- Tribe Potamocypridini Ghetti & McKenzie, 1981**  
*Potamocyparis* Brady, 1870
- Tribe Zonocypridini Higuti & Martens, 2012**  
*Cabelodopsis* Higuti & Martens, 2012  
*Zonocyparis* G.W. Müller, 1898
- Subfamily Cyprinotinae Bronstein, 1947**  
*Cyprinotus* Brady, 1886  
*Hemicypris* Sars, 1903  
*Heterocypris* Claus, 1892  
*Homocypris* Sars, 1924  
*Riocypris* Klie, 1935
- Subfamily Diacypridinae McKenzie, 1978**  
*Diacypris* Herbst, 1961  
*Reticyparis* McKenzie, 1978
- Subfamily Dolerocypridinae Triebel, 1961**  
*Dolerocypris* Kaufmann, 1900
- Subfamily Eucypridinae Bronstein, 1947**  
*Arctocypris* Petkovski *et al.*, 2016  
*Argentocypris* Díaz & Martens, 2014  
*Candelacypris* Baltanás, 2001  
*Candocyprinotus* Delorme, 1970  
*Eucyprinotus* Sywula, 1972  
*Eucypris* Vávra, 1891  
*Koencypris* Meisch, 2000  
*Prionocypris* Brady & Norman, 1896  
*Tonnacypris* Diebel & Pietrzeniuk, 1975  
*Trajancypris* Martens, 1989
- Subfamily Herpetocyprellinae Bronstein, 1947**  
*Herpetocyprella* Daday, 1909
- Subfamily Herpetocypridinae Kaufmann, 1900**
- Tribe Herpetocypridini Kaufmann, 1900**  
*Candonocypris* Sars, 1896  
*Herpetocypris* Brady & Norman, 1889  
*Ilyodromus* Sars, 1894
- Tribe Isocypridini Rome, 1965**  
*Amphibolocypris* Rome, 1965  
*Isocypris* G.W. Müller, 1908  
*Platocypris* Herbst, 1957

**Tribe Psychrodromini Martens, 2001**

*Humphcypris* Martens, 1997  
*Paranacypris* Higuti *et al.*, 2009  
*Psychrodromus* Danielopol & McKenzie, 1977  
*Somalicypris* Martens, 1997

**Tribe Stenocypridini Ferguson, 1964**

*Acocypris* Vávra, 1895  
*Ampullacypris* De Deckker, 1981  
*Chrissia* Hartmann, 1957  
*Stenocypris* G.W. Müller, 1901  
*Stenocypris* Sars, 1889

**Subfamily Hungarocypridinae Bronstein, 1947**

*Hungarocypris* Vávra, 1906

**Subfamily Limanocypridinae Hartmann & Puri, 1974**

*Limanocypris* Schornikov, 1961

**Subfamily Liocypridinae Martens, 2003**

*Afrocypris* Sars, 1924  
*Liocypris* Sars, 1924

**Subfamily Megalocypridinae Rome, 1965**

**Tribe Megalocypridini Rome, 1965**

*Apatelecypris* Rome, 1965  
*Eundacypris* Martens, 1986  
*Hypselecypris* Rome, 1965  
*Madagascarcypris* Martens, 1986  
*Megalocypris* Sars, 1898  
*Sclerocypris* Sars, 1924

**Tribe Tanganyikacypridini De Deckker & Wouters, 1983**

*Tanganyikacypris* Kiss, 1961

**Subfamily Mytilocypridinae De Deckker, 1974**

*Australocypris* De Deckker, 1974  
*Caboncypris* De Deckker, 1982  
*Lacrimocypris* Halse & McRae, 2004  
*Mytilocypris* McKenzie, 1966  
*Repandocypris* Halse & McRae, 2004  
*Trigonocypris* De Deckker, 1976

**Subfamily Ngarawinae De Deckker, 1979**

*Ngarawa* De Deckker, 1979

**Subfamily Pelocypridinae Triebel, 1962**

*Pelocypris* Klie, 1939

**Subfamily Rudjakoviellinae Triebel, 1973**

*Rudjakoviella* Triebel, 1973

**Subfamily Scottiinae Bronstein, 1947**

*Austromesocypris* Martens *et al.*, 2004  
*Mesocypris* Daday, 1910  
*Scottia* Brady & Norman, 1889

**Subfamily uncertain**

*Amphicypris* Sars, 1901  
*Cypriconcha* Sars, 1926

**Family Candonidae Kaufmann, 1900**

**Subfamily Candoninae Kaufmann, 1900**

**Tribe Candonini Kaufmann, 1900**

- Acandona* Karanovic, 2003  
*Alatocandona* Carbonnel, 1969  
*Baicalocandona* Mazepova, 1976  
*Bicornucandona* Külköylüoğlu *et al.*, 2011

- Danielocandona* Broodbakker, 1983

- Namibcypris* Martens, 1992

**Tribe Terrestricypridini Schornikov, 1980**

*Caaporacandona* Pinto *et al.*, 2005  
*Terrestricandona* Danielopol & Betsch, 1980  
*Terrestricypris* Schornikov, 1980

**Tribe Trapezicandonini Karanovic, 2007**

Syn.: *Mixtacandonini* Karanovic & Lee, 2012 **syn. nov.**  
*Indocandona* Gupta, 1984  
*Mixtacandona* Klie, 1938  
*Undulacandona* Smith, 2011

**Subfamily Cyclocypridinae Kaufmann, 1900**

*Allocypria* Rome, 1962  
*Cyclocypris* Brady & Norman, 1889  
*Cypria* Zenker, 1854  
*Dentocypris* Savatenalinton, 2017  
*Kempfcyclocypris* Karanovic, 2011  
*Mecynocypria* Rome, 1962  
*Namiotkocypria* Külköylüoğlu, 2018  
*Physocypris* Vávra, 1897

**Subfamily Paracypridinae Sars, 1923**

**Tribe Renaudcypridini McKenzie, 1980**  
*Renaudcypris* McKenzie, 1980

**Tribe Thalassocypridini Hartmann & Puri, 1974**  
*Dolerocypris* Tressler, 1937  
*Hansacypris* Wouters, 1984  
*Mangalocypris* Wouters, 1998  
*Mungava* Harding, 1962  
*Paracypris* Sars, 1910  
*Pontoparta* Vávra, 1901  
*Thalassocypris* Hartmann, 1957

**Family Ilyocyprididae Kaufmann, 1900**

**Subfamily Ilyocypridinae Kaufmann, 1900**  
*Ilyocypris* Brady & Norman, 1889

**Subfamily Indiacypridinae Hartmann & Puri, 1974**  
*Indiacypris* Hartmann, 1964

**Family Notodromadidae Kaufmann, 1900**

**Subfamily Cyprloidinae Hartmann, 1963**  
*Cyprois* Zenker, 1854

**Subfamily Notodromadinae Kaufmann, 1900**  
*Argentodromas* Díaz & Martens, 2018  
*Centrocypris* Vávra, 1895  
*Gurayacypris* Battish, 1987  
*Kennethia* De Deckker, 1979  
*Newnhamia* King, 1855  
*Notodromas* Lilljeborg, 1853

**Subfamily Oncocypridinae De Deckker, 1979**

*Neozonocypris* Klie, 1944  
*Oncocypris* G.W. Müller, 1898

**Superfamily Cytheroidea Baird, 1850**

**Family Cytheridae Baird, 1850**

*Pericythere* Hartmann, 1957  
*Perissocytheridea* Stephenson, 1938

**Family Cytherideidae Sars, 1925**

**Subfamily Cytherideinae Sars, 1925**

**Tribe Cytherideidini Kollmann, 1960**

- Archeocyprideis* Ducasse & Carbonel, 1994  
*Cyprideis* Jones, 1857  
*Cytherissa* Sars, 1925

*Romecytheridea* Wouters, 1988  
*Sarsicytheridea* Athersuch, 1982  
*Tanganyikacythere* Ducasse & Carbonel, 1993

**Family Cytheruridae G.W. Müller, 1894**

- Cytherura* Sars, 1866  
*Semicytherura* Wagner, 1957

**Family Entocytheridae Hoff, 1942**

**Subfamily Entocytherinae Hoff, 1942**

- Ankylocythere* Hart, 1962  
*Ascetocythere* Hart, 1962  
*Aurumcythere* Weaver & Williams, 2017  
*Cymocythere* Hart, 1962  
*Dactylocythere* Hart, 1962  
*Donnaldsoncythere* Rioja, 1942  
*Entocythere* Marshall, 1903  
*Geocythere* Hart, 1962  
*Harpagocythere* Hobbs III, 1965  
*Hartocythere* Hobbs III, 1970  
*Litocythere* Hobbs & Walton, 1968  
*Lordocythere* Hobbs & Hobbs, 1970  
*Okriocythere* Hart, 1964  
*Ornithocythere* Hobbs, 1967  
*Phymocythere* Hobbs & Hart, 1966  
*Plectocythere* Hobbs III, 1965  
*Psittocythere* Hobbs & Walton, 1975  
*Rhadinocythere* Hart, 1962  
*Sagittocythere* Hart, 1962  
*Saurocythere* Hobbs III, 1969  
*Thermastrocythere* Hobbs & Walton, 1966  
*Uncinocythere* Hart, 1962  
*Waltonocythere* Hobbs & Peters, 1978

**Subfamily Hartiellinae Danielopol, 1971**

- Hartiella* Danielopol, 1971

**Subfamily Microsyssitiinae Hart *et al.*, 1967**

- Microsyssitia* Hart *et al.*, 1967

**Subfamily Notocytherinae Hart & Hart, 1967**

- Chelocythere* Hart & Hart, 1967  
*Elachistocythere* Hart & Hart, 1970  
*Herpetocythere* Hart & Hart, 1967  
*Hesperocythere* Hart & Hart, 1967  
*Laccocythere* Hart & Hart, 1971

- Lichnocythere* Hart & Hart, 1967  
*Notocythere* Hart & Hart, 1967  
*Riekocythere* Hart & Hart, 1967
- Subfamily Sphaeromicolinae Hart, 1962**  
*Hobbsiella* Danielopol & Hart, 1985  
*Sphaeromicola* Paris, 1916
- Family Hemicytheridae Puri, 1953**  
*Tyrrhenocythere* Ruggieri, 1955
- Family Kliellidae Schäfer, 1945**  
*Kliella* Schäfer, 1945  
*Nannokliella* Schäfer, 1945
- Family Leptocytheridae Sars, 1925**  
*Amnicythere* Devoto, 1965  
*Leptocythere* Sars, 1925
- Family Limnocytheridae Sars, 1925**
- Subfamily Limnocytherinae Sars, 1925**
- Tribe Leucocytherini Danielopol *et al.*, 1990**
- Athalocythere* Schornikov, 1986  
*Leucocythere* Kaufmann, 1900  
*Leucocytherella* Huang, 1982  
*Ovambocythere* Martens, 1989  
*Potamocythere* Schornikov, 1986
- Tribe Limnocytherini Klie, 1938**
- Galolimnocythere* Schornikov, 1973  
*Kiwicythere* Martens, 1992  
*Korannacythere* Martens, 1996  
*Limnocythere* Brady, 1868  
*Limnocytherina* Negadaev-Nikonov, 1967  
*Neolimnocythere* Delachaux, 1928  
*Paracythereis* Delachaux, 1928  
*Paralimnocythere* Carbonnel, 1965
- Subfamily Timiriaseviinae Mandelstam, 1960**
- Syn.: Metacypridinae Danielopol, 1960 (fide Colin & Danielopol 1978)
- Afrocythere* Klie, 1935  
*Cytheridella* Daday, 1905  
*Dolekiella* Gidó *et al.*, 2007  
*Elpidium* F. Müller, 1880  
*Frambocythere* Colin, 1981  
*Gomphocythere* Sars, 1924  
*Gomphodella* De Deckker, 1981  
*Intrepidocythere* Pinto *et al.*, 2008  
*Kovalevskiella* Klein, 1963  
*Metacypris* Brady & Robertson, 1870
- Family Loxoconchidae Sars, 1925**
- Cytheromorpha* Hirschmann, 1909  
*Elofsonia* Wagner, 1957  
*Loxoconcha* Sars, 1866  
*Pseudolimnocythere* Klie, 1938  
*Sanyuania* Zhao & Han, 1980

**Family Paradoxostomatidae Brady & Norman, 1989**

*Cytherois* G.W. Müller, 1884

**Family Xestoleberididae Sars, 1928**

*Xestoleberis* Sars, 1866

**Superfamily Darwinuloidea Brady & Robertson, 1885**

**Family Darwinulidae Brady & Robertson, 1885**

*Alicenula* Rossetti & Martens, 1998

*Darwinula* Brady & Robertson, 1885

*Candona candida* var. *humilis* Ekman, 1914

*Candona capsularis* Klie, 1935: NT

*Candona crogmaniana* Turner, 1894: NA

Syn.: *Candona recticauda* Sharpe, 1897 (fide Karanovic 2006)

Syn.: *Candona reflexa* Sharpe, 1897 (fide Karanovic 2006)

- Candona cyproides* (Daday, 1905) Lüttig 1962: NT  
    *Eucandona cyproides* Daday, 1905  
*Candona dadayi* G.W. Müller, 1912: PA  
    Nom. nov. pro *Candona reticulata* Daday, 1897 nec Hejas, 1894  
*Candona dalmatina* Petkovski et al., 2002: PA  
*Candona decora* Furtos, 1933: NA  
    Syn.: *Candona fossulensis* Hoff, 1942 (fide Delorme 1970)  
    Syn.: *Candona facetus* Delorme, 1970 (fide Karanovic 2006)  
*Candona dedelica* Petkovski, 1969: PA  
*Candona delawarensis* Turner, 1894: NA  
*Candona deltoides* Mazepova, 1990: PA  
*Candona demissa* Mazepova, 1990: PA  
*Candona depressa* Klie, 1939: PA  
*Candona directa* Bronstein, 1947: PA  
    *Mazepovacandona directa* (Bronstein, 1947) Karanovic & Sitnikova 2017  
*Candona dryschenkoi* Mazepova, 1990: PA  
*Candona dybowskii* Mazepova, 1990: PA  
*Candona elegans* Bronstein, 1928: PA  
*Candona elpatiewskyi* (Daday, 1906) Bronstein, 1928: PA  
    *Eucandona elpatiewskyi* Daday, 1906  
*Candona expansa* Mikulić, 1961: PA  
*Candona falcata* Alm, 1914: NA, PA  
*Candona fasciolata* Petkovski, 1961: PA  
*Candona flava* Mazepova, 1984: PA  
*Candona fluctigera* Mazepova, 1990: PA  
*Candona formosa* Mikulić, 1961: PA  
*Candona fossiliformis* Mazepova, 1970: PA  
*Candona foviolata* Dobbin, 1941: NA  
*Candona galinae* nom. nov.: PA  
    Nom. nov. pro *Candona rara* Mazepova, 1990 nec G.W. Müller, 1900  
*Candona godlewskii* Mazepova, 1984: PA  
    *Mazepovacandona godlewskii* (Mazepova, 1984) Karanovic & Sitnikova 2017  
*Candona goricensis* Mikulić, 1961: PA  
*Candona gracilenta* Mazepova, 1990: PA  
*Candona grizea* Mazepova, 1982: PA  
*Candona hadzistei* Petkovski et al., 2002: PA  
    Nom. nov. pro *Candona parvula* Mikulić, 1961 nec Sars, 1926  
*Candona hartmanni* Petkovski, 1969: PA  
*Candona holmesi* Petkovski, 1960: PA  
*Candona humilis* Bronstein, 1947: PA  
*Candona ikpikpuensis* (Swain, 1963) Delorme 1968: NA  
    *Pseudocandona ikpikpuensis* Swain, 1963  
*Candona iliensis* Mandelstam, 1962: PA  
*Candona illiesi* McKenzie, 1971: AU  
    *Typhlocypris (Typhlocypris) illiesi* (McKenzie, 1971) Karanovic 2005  
*Candona improvisa* Ostermeyer, 1937: PA  
    Syn.: *Candona devexa* Kaufmann, 1900 (nom. oblitum; fide Meisch 2000)  
*Candona inaequivalvis* Sars, 1899: PA  
*Candona incarum* (Moniez, 1889) Martens & Behen 1994: NT  
    *Cypris incarum* Moniez, 1889

*Candona inexpecta* Chapman, 1963: AU (see Taxonomic notes)

*Candona inopinata* Furtos, 1933: NA

Syn.: *Candona truncata* Furtos, 1933 (fide Karanovic 2006)

Syn.: *Candona indigena* Hoff, 1942 (fide Karanovic 2006)

*Candona insularis* Mazepova, 1985: PA

*Candona intermedia* Furtos, 1933: NA

*Candona intersita* Mazepova, 1990: PA

*Candona ivanowi* Mazepova, 1984: PA

*Candona jordeae* Petkovski *et al.*, 2002: PA

Nom. nov. pro *Candona lucida* Petkovski, 1959 nec Schneider, 1959

*Candona kazmina* Konovalova, 2012: PA

*Candona keiseri* Bronstein, 1929: PA

*Candona korjakovi* Mazepova, 1982: PA

*Candona krochini* Bronstein, 1947: PA

*Candona kuchurganica* Kovalenko, 1988: PA

*Candona (Eucandona) kuchurganica* Kovalenko, 1988

*Candona laciniata* Ekman, 1908: PA

*Candona lamakini* Mazepova, 1990: PA

*Candona larvaeformis* Bronstein, 1947: PA

    Syn.: *Candona spelaea* Klie, 1941 (fide Meisch 2000)  
    Syn.: *Candona hertzogi beskidana* Sywula, 1974 (fide Meisch 2000)
- Fabaefliscandona brevicornis* (Klie, 1925) Meisch 1996: PA  
    *Candona brevicornis* Klie, 1925  
    Syn.: *Candona (Typhlocypris) limnocrenica* Sywula, 1971 (fide Meisch 2000)
- Fabaefliscandona brisiaca* (Klie, 1938) Meisch 1996: PA  
    *Candona brisiaca* Klie, 1938
- Fabaefliscandona caucasica* (Bronstein, 1928) Wilkinson *et al.* 2005: PA  
    Syn.: *Candona elpatiewskyi* var. *caucasica* Bronstein, 1928 (fide Bronstein 1947)
- Fabaefliscandona caudata* (Kaufmann, 1900) Danielopol *et al.* 1988: NA, PA  
    *Candona caudata* Kaufmann, 1900  
    Syn.: *Candona elongata* Brady & Norman, 1889 (unused older synonym; fide Klie 1938a)  
    Syn.: *Fabaefliscandona caudata* var. *ciliata* (Furtos, 1935) (fide Karanovic 2006)  
        *Candona caudata* var. *ciliata* Furtos, 1935  
    Syn.: *Fabaefliscandona caudata occidentalis* (Dobbin, 1941) (fide Karanovic 2006)  
        *Candona caudata occidentalis* Dobbin, 1941
- Fabaefliscandona condylea* Smith & Janz, 2008: PA
- Fabaefliscandona danielopoli* Yin & Martens, 1997: PA
- Fabaefliscandona distincta* (Furtos, 1933) Martens & Savatenalinton 2011: NA  
    *Candona distincta* Furtos, 1933
- Fabaefliscandona dolabella* Smith & Janz, 2008: PA
- Fabaefliscandona dorsobiconcava* (Bronstein, 1947) Wilkinson *et al.* 2005: PA  
    *Candona dorsobiconcava* Bronstein, 1947
- \**Fabaefliscandona fabaeformis* (Fischer, 1851) Danielopol 1973: OL, PA  
    *Cypris fabaeformis* Fischer, 1851  
    Syn.: *Candona diaphana* Brady & Robertson, 1870 (fide Klie 1938a)  
    Syn.: *Candona bradyi* Hartwig, 1898 (fide Klie 1938a)  
    ? Syn.: *Candona fuhrmanni* Thiébaud, 1908 (fide Meisch 2000)
- Fabaefliscandona fabella* (Nüchterlein, 1969) Griffiths & Evans 1995: PA  
    *Candona fabella* Nüchterlein, 1969  
    Syn.: *Candona (Eucandona) slesiniaca* Sywula, 1974 (fide Meisch 2000)
- Fabaefliscandona forma* (Karanovic, 1999) Martens & Savatenalinton 2011: PA  
    *Eucandona forma* Karanovic, 1999
- Fabaefliscandona fragilis* (Hartwig, 1898) Danielopol 1980: PA  
    *Candona fragilis* Hartwig, 1898
- Fabaefliscandona groenlandica* (Brehm, 1911) Martens & Savatenalinton 2011: NA, PA  
    *Candona groenlandica* Brehm, 1911
- Fabaefliscandona gyirongensis* (Huang, 1982) Wrozyna *et al.* 2009: PA  
    *Candona gyirongensis* Huang, 1982
- Fabaefliscandona harmsworthi* (Scott, 1899) Griffiths 1996: NA, PA  
    *Candona harmsworthi* Scott, 1899  
    Syn.: *Candona rectangulata* Alm, 1914 (fide Namiotko *et al.* 2009)
- Fabaefliscandona holzkampfi* (Hartwig, 1900) Wouters 1989: OL, PA  
    *Candona holzkampfi* Hartwig, 1900  
    Syn.: *Eucandona csikii pannonica* Daday, 1903 (fide Bronstein 1947)

- Fabaefliscandona hyalina* (Brady & Robertson, 1870) Danielopol 1980: NA, PA  
*Candonia hyalina* Brady & Robertson, 1870
- Fabaefliscandona koreana* Karanovic & Lee, 2012: PA
- Fabaefliscandona krstici* (Petkovski, 1969) Krstić 1979: PA  
*Candonia krstici* Petkovski, 1969
- Fabaefliscandona kushiroensis* Hiruta & Hiruta, 2015: PA
- Fabaefliscandona lapponica* (Ekman, 1908) Griffiths 1995: NA, PA  
*Candonia lapponica* Ekman, 1908
- Fabaefliscandona lapponica* var. *arctica* (Alm, 1914) Wetterich et al. 2008a  
*Candonia lapponica* var. *arctica* Alm, 1914
- Fabaefliscandona latens* (Klie, 1940) Danielopol 1980: PA  
*Candonia latens* Klie, 1940
- Fabaefliscandona levanderi* (Hirschmann, 1912) Griffiths 1995: PA  
*Candonia levanderi* Hirschmann, 1912  
Syn.: ? *Candonia elongata* Holmes, 1937 (fide Meisch 2000)
- Fabaefliscandona myllaina* Smith & Kamiya, 2007: PA
- Fabaefliscandona nishinoae* Smith & Janz, 2008: PA
- Fabaefliscandona obtusa* (Bronstein, 1947) Martens & Savatenalinton 2011: NA, NT, PA  
*Candonia obtusa* Bronstein, 1947  
Syn.: *Candonia patzcuaro* Tressler, 1954 (fide Karanovic 2006)  
Syn.: *Candonia hipolitensis* Tressler, 1954 (fide Delorme 1970)  
Syn.: *Candonia michoa* Tressler, 1954 (fide Karanovic 2006)  
Syn.: *Candonia rawsoni* Tressler, 1957 (fide Delorme 1970)  
Syn.: *Candonia nyensis* Gutentag & Benson, 1962 (fide Delorme 1970)  
Syn.: *Candonia swaini* Staplin, 1963 (fide Delorme 1970)  
Syn.: *Candonia swaini sappaensis* Staplin, 1963 (fide Delorme 1970)  
Syn.: *Candonia verretensis* Leroy, 1964 (fide Delorme 1970)
- Fabaefliscandona okuboi* Smith & Janz, 2008: PA
- Fabaefliscandona paterea* Smith & Janz, 2008: PA
- Fabaefliscandona pedana* Smith & Janz, 2008: PA
- Fabaefliscandona pedata* (Alm, 1914) Wetterich et al. 2008b: PA  
*Candonia pedata* Alm, 1914
- Fabaefliscandona pennaki* Marmonier & Ward, 1990: NA
- Fabaefliscandona protzi* (Hartwig, 1898) Danielopol et al. 1988: NA, PA  
*Candonia protzi* Hartwig, 1898
- Fabaefliscandona pyrenaica* (Margalef, 1952) Baltanás et al. 1996: PA  
*Candonia pyrenaica* Margalef, 1952
- Fabaefliscandona siliquosa* (Brady, 1910) Griffiths & Evans 1995: PA  
*Candonia siliquosa* Brady, 1910
- Fabaefliscandona subacuta* (Yang, 1982) Schornikov & Trebukhova 2001: AU, NT, OL, PA  
*Candonia subacuta* Yang, 1982  
Syn.: *Candonia sangganheensis* Huang, 1985 (fide Escrivá et al. 2012)  
Syn.: *Candonia japonica* Okubo, 1990 (fide Escrivá et al. 2012)
- Fabaefliscandona svetozari* (Petkovski & Karanovic, 2004) Martens & Savatenalinton 2011: PA  
*Eucandonia svetozari* Petkovski & Karanovic, 2004
- Fabaefliscandona thienemanni* (Klie, 1932) **comb. nov.**: OL  
*Candonia thienemanni* Klie, 1932
- Fabaefliscandona tora* Smith & Kamiya, 2007: PA
- Fabaefliscandona tricicatrica* (Diebel & Pietrzeniuk, 1969) Griffiths 1995: PA  
*Candonia tricicatrica* Diebel & Pietrzeniuk, 1969  
Syn.: *Candonia lozeki* Absolon, 1973 (fide Danielopol et al. 2015)

*Fabaeformiscandona tyrolensis* (Löffler, 1963) Meisch 2000: PA

*Candona tyrolensis* Löffler, 1963

*Fabaeformiscandona velifera* Smith & Janz, 2008: PA

*Fabaeformiscandona wegelini* (Petkovski, 1962) Danielopol 1980: NA, PA

*Candona wegelini* Petkovski, 1962

*Fabaeformiscandona yajimae* Smith & Janz, 2008: PA

***Frambocythere* Colin, 1981**

Type species: *Frambocythere tumiensis* (Helmdach, 1978) Colin 1981 (fossil species)

*Frambocythere relicta* Smith et al., 2012: PA

***Galolimnocythere* Schornikov, 1973**

*Limnocythere (Galolimnocythere)* Schornikov, 1973

*Galolimnocythere baikaliensis* (Martens & Mazepova, 1992) Martens 1996: PA

*Limnocythere baikaliensis* Martens & Mazepova, 1992

\**Galolimnocythere sarsi* (Schornikov, 1973) Martens 1996: PA

*Limnocythere (Galolimnocythere) sarsi* Schornikov, 1973

***Geocythere* Hart, 1962**

*Geocythere acuta* Hart & Hart, 1971: NA

\**Geocythere geophila* (Hart, 1959) Hart 1962: NA

*Entocythere geophila* Hart, 1959

*Geocythere gyralea* Hart, 1965: NA

*Geocythere nessooides* Hobbs & Hobbs, 1970: NA

***Globocypris* Klie, 1939**

\**Globocypris trisetosa* Klie, 1939: AT

***Gomphocythere* Sars, 1924**

*Gomphocythere aethiopis* Rome, 1970: AT

*Gomphocythere alata* Rome, 1962: AT

*Gomphocythere angulata* Lowndes, 1932: AT

*Gomphocythere angusta* Klie, 1939: AT

*Gomphocythere australica* Hussainy, 1969: AU

*Gomphocythere besni* Külköylüoğlu et al., 2015: PA

*Gomphocythere capensis* G.W. Müller, 1914: AT

    Syn.: *Gomphocythere expansa* Sars, 1924 (fide Martens 2001b)

*Gomphocythere coheni* Park & Martens, 2001: AT

*Gomphocythere cristata* Rome, 1962: AT

*Gomphocythere curta* Rome, 1962: AT

*Gomphocythere downingi* Park & Martens, 2001: AT

*Gomphocythere duffi* (Hornbrook, 1955) Barclay 1968: AU

*Limnicythere duffi* Hornbrook, 1955

*Gomphocythere emrysi* Martens, 2003: AT

*Gomphocythere huwi* Martens, 2003: AT

*Gomphocythere irvinei* Martens, 2003: AT

*Gomphocythere lenis* Rome, 1962: AT

*Gomphocythere lisae* Martens, 2003: AT

\**Gomphocythere obtusata* Sars, 1910: AT

*Gomphocythere ortali* Martens, 1993: PA

*Gomphocythere parcedilatata* Rome, 1977: AT

*Gomphocythere piriformis* Martens, 2003: AT

*Gomphocythere problematica* (Brehm, 1932) Brehm 1939: AU

*Limnocythere problematica* Brehm, 1932

*Gomphocythere simplex* Rome, 1962: AT

*Gomphocythere wilsoni* Park & Martens, 2001: AT

*Gomphocythere woutersi* Park & Martens, 2001: AT

***Gomphodella*** De Deckker, 1981

*Gomphodella alexanderi* Karanovic & Humphreys, 2014: AU

*Gomphodella aura* Karanovic, 2009: AU

*Gomphodella glomerosa* Karanovic, 2006: AU

*Gomphodella hirsuta* Karanovic, 2006: AU

\**Gomphodella maia* De Deckker, 1981: AU

*Gomphodella martensi* Karanovic, 2009: AU

*Gomphodella pilbarensis* Karanovic, 2009: AU

*Gomphodella quasihirsuta* Karanovic, 2009: AU

*Gomphodella yandii* Karanovic, 2006: AU

***Gurayacypris*** Battish, 1987

\**Gurayacypris kangraensis* Battish, 1987: OL

***Hancockcandonopsis*** Karanovic, 2018

\**Hancockcandonopsis inachos* Karanovic, 2018: AU

*Hancockcandonopsis io* Karanovic, 2018: AU

*Hancockcandonopsis tamworthi* Karanovic, 2018: AU

***Hansacypris*** Wouters, 1984

Type species: *Hansacypris aspera* Wouters, 1984: PAC (marine species)

*Hansacypris galapagosensis* Maddocks, 1992: PAC

*Hansacypris glabra* Wouters, 1984: PAC

*Hansacypris motuporensis* Wouters, 2001: PAC

*Hansacypris natans* (Hartmann, 1984) Wouters 1986: PAC

*Renaudcypris natans* Hartmann, 1984

***Harpagocythere*** Hobbs III, 1965

*Harpagocythere baileyi* Hobbs & Peters, 1977: NA

\**Harpagocythere georgiae* Hobbs III, 1965: NA

*Harpagocythere tertius* Hobbs & Walton, 1968: NA

***Hartiella*** Danielopol, 1971

\**Hartiella dudichi* (Klie, 1938) Danielopol 1971: PA

*Sphaeromicola dudichi* Klie, 1938

***Hartocythere*** Hobbs III, 1970

\**Hartocythere torreya* (Hart, 1959) Hobbs III 1970: NA

*Entocythere torreya* Hart, 1959

***Hemicypris*** Sars, 1903

*Hemicypris anomala* (Klie, 1938) Purper & Würdig-Maciel 1974: NT, OL, PA

*Heterocypris anomala* Klie, 1938

*Hemicypis arorai* Mannikeri & Vaidya, 1990: OL

*Hemicypris aurita* (Klie, 1939) Purper & Würdig-Maciel 1974: AT, NT

*Heterocypris aurita* Klie, 1939

- Hemicypris bairdi* Martens & Wouters, 1985: OL  
Nom. nov. pro *Cypris dentatomarginata* (Baird, 1859) (partim) nec *Cypris dentatomarginata* Baird, 1859 (partim)
- Hemicypris barbadensis* Broodbakker, 1983: NT, PA
- Hemicypris battishi* Mannikeri & Vaidya, 1990: OL
- Hemicypris communis* (Klie, 1940) Purper & Würdig-Maciel 1974: NT  
*Heterocypris communis* Klie, 1940
- Hemicypris congenera* (Vávra, 1897) sensu Daday 1910 nec Vávra, 1897: AT, PA (see Taxonomic notes)  
*Cyprinotus congener* Vávra, 1897 sensu Daday 1910 nec Vávra, 1897
- Hemicypris decorata* (Daday, 1910) Bate 1970: AT  
*Cyprinotus decoratus* Daday, 1910
- Hemicypris dentatomarginata* (Baird, 1859) McKenzie 1972: OL, PA  
*Cypris dentatomarginata* Baird, 1859
- Hemicypris derweshensis* Battish, 1981: OL
- Hemicypris dissona* Victor & Fernando, 1976: OL
- Hemicypris exigua* Broodbakker, 1983: NT, OL
- Hemicypris falcata* Victor & Fernando, 1976: OL
- Hemicypris fossulata* (Vávra, 1897) McKenzie 1966a: AT  
*Cyprinotus fossulatus* Vávra, 1897
- Hemicypris fuelleborni* (Daday, 1910) Bate 1970: AT  
*Eucypris fuelleborni* Daday, 1910
- Hemicypris futunaensis* Victor & Fernando, 1978: OL, PAC
- Hemicypris humbertii* (Gauthier, 1933) Bate 1970: AT  
*Cyprinotus humbertii* Gauthier, 1933
- Hemicypris intermedia* (Lindroth, 1953) Bate 1972: AT  
*Cyprinotus intermedius* Lindroth, 1953
- Hemicypris inversa* (Daday, 1913) Bate 1970: AT, PA  
*Cyprinotus inversus* Daday, 1913
- Hemicypris irakensis* Al-Da'amy, 2010: PA
- Hemicypris kaufmanni* (Vávra, 1906) Bate 1970: PA  
*Cyprinotus kaufmanni* Vávra, 1906
- Hemicypris kissi* Martens, 1984: AT  
Nom. nov. pro *Hemicypris dentatomarginata* Kiss, 1959 nec Baird, 1859
- Hemicypris kliei* (Lindroth, 1953) Bate 1972: AT  
*Cyprinotus kliei* Lindroth, 1953  
Syn.: *Hemicypris posterotruncata* Bate, 1970 (fide Martens 1984)
- Hemicypris largereticulata* (Rome, 1969) Freels 1980: AT  
*Cyprinotus largereticulatus* Rome, 1969
- Hemicypris levis* (Hartmann, 1964) Purper & Würdig-Maciel 1974: PA  
*Heterocypris levis* Hartmann, 1964
- Hemicypris malerkotlaensis* Battish, 1981: OL
- Hemicypris megalops* Sars, 1903: AU, OL, PA  
Syn.: *Hemicypris kibiensis* Okubo, 1990 (fide Okubo 2004)
- Hemicypris mizunoi* Okubo, 1990: OL, PA
- Hemicypris nonstriata* (Lindroth, 1953) Bate 1972: AT, PA  
*Cyprinotus nonstriatus* Lindroth, 1953
- Hemicypris ovata* Sars, 1903: NT, OL, PA  
Syn.: *Hemicypris nipponica* Okubo, 1990 (fide Okubo 2004)
- Hemicypris pailensis* Battish, 1981: OL
- Hemicypris pandei* Bhatia & Singh, 1977: OL

*Hemicypris paucipustulosa* Victor & Fernando, 1981: OL

\**Hemicypris pyxidata* (Moniez, 1892) Sars 1903a: AU, OL, PA

*Cyprinotus pyxidatus* Moniez, 1892

*Hemicypris rara* (Klie, 1940) Purper & Würdig-Macié 1974: NT

*Heterocypris rara* Klie, 1940

*Hemicypris reticulata* (Klie, 1930) Bate 1970: AT, NT, OL

*Heterocypris reticulatus* Klie, 1930

*Hemicypris salaria* (Hartmann, 1962) Purper & Würdig-Macié 1974: NT

*Heterocypris salaria* Hartmann, 1962

*Hemicypris stenoglypha* (Rome, 1969) Freels 1980: AT

*Cyprinotus stenoglyphus* Rome, 1969

*Hemicypris vulgaris* Okubo, 1990: PA

***Herpetocyprella* Daday, 1909**

\**Herpetocyprella mongolica* Daday, 1909: PA

***Herpetocypris* Brady & Norman, 1889**

Syn.: *Erpetocypris* Brady & Norman, 1889 (fide G.W. Müller 1912)

Syn.: *Siphlocandona* Brady, 1910 (fide Fox 1964)

*Herpetocypris aequalis* Chapman, 1934: AU

*Herpetocypris brevicaudata* Kaufmann, 1900: NA, PA

    Syn.: *Herpetocypris ghigii* Masi, 1932 (fide Gonzalez Mozo *et al.* 1996)

    Syn.: *Herpetocypris lenta* Rome, 1947 (fide Gonzalez Mozo *et al.* 1996)

    Syn.: *Herpetocypris flumendosa* Anichini, 1967 (fide Gonzalez Mozo *et al.* 1996)

*Herpetocypris chevreuxi* (Sars, 1896) G.W. Müller 1912: NA, NT, PA

*Stenocypris chevreuxi* Sars, 1896

    Syn.: *Cypris hessei* Keilhack, 1911 (fide Meisch 2000)

    Syn.: *Herpetocypris tarnogradskyi* Bronstein, 1925 (fide Meisch 2000)

    Syn.: *Herpetocypris agilis* Rome, 1954 (fide Gonzalez Mozo *et al.* 1996)

    Syn.: *Herpetocypris romei* Anichini, 1967 **syn. nov.**

    Syn.: *Herpetocypris scoininosa* Anichini, 1968 (fide Gonzalez Mozo *et al.* 1996)

*Herpetocypris fontinalis* Bronstein, 1928: PA

*Herpetocypris helenae* G.W. Müller, 1908: AT, NT, PA

    Syn.: *Cypris intermedia latialis* Masi, 1905 (fide Gonzalez Mozo *et al.* 1996) (unused senior synonym)

    Syn.: *Herpetocypris palpiger* Lowndes, 1932 (fide Meisch 2000)

    Syn.: *Herpetocypris caerulea* Rome, 1954 (fide Meisch 2000)

    Syn.: *Herpetocypris puteolina* Anichini, 1968 (fide Meisch 2000)

*Herpetocypris intermedia* Kaufmann, 1900: NT, PA

    Syn.: *Herpetocypris andegavensis* Anichini, 1968 (fide Meisch 2000)

*Herpetocypris laevissima* Henry, 1923: NA

*Herpetocypris ludhianensis* Battish, 1982: OL

*Herpetocypris mateusorum* Paulo, 1969: PA

*Herpetocypris pattersoni* Tressler, 1954: NA

*Herpetocypris pectinata* Brehm, 1934: NT

*Herpetocypris peregrina* Croneberg, 1894: PA

\**Herpetocypris reptans* (Baird, 1835) Brady & Norman 1889: NA, NT, PA

*Cypris reptans* Baird, 1835

    Syn.: *Candonopsis complanata* Brady, 1902 (fide Martens 1984)

    Syn.: *Candonia virescens* Brady, 1864 (fide Sars 1925)

*Herpetocypris reptans* var. *curvata* Kaufmann, 1900

*Herpetocypris smaragdea* Daday, 1908: PA

*Herpetocypris stewarti* Daday, 1908: PA

*Herpetocypris syriaca* Daday, 1911: PA

***Herpetocythere* Hart & Hart, 1967**

*Herpetocythere acanthoides* Hart & Hart, 1967: AU

\**Herpetocythere australensis* Hart & Hart, 1967: AU

*Herpetocythere bendorae* Hart & Hart, 1967: AU

*Herpetocythere gnoma* Hart & Hart, 1967: AU

*Herpetocythere labidoides* Hart & Hart, 1967: AU

*Herpetocythere mackenziei* Hart & Hart, 1967: AU

***Hesperocythere* Hart & Hart, 1967**

\**Hesperocythere klasteroides* Hart & Hart, 1967: AU

*Hesperocythere tallanalla* Hart & Hart, 1967: AU

*Hesperocythere xiphoides* Hart & Hart, 1967: AU

***Heterocypris* Claus, 1892**

Syn.: *Cyprinotus* (*Cyprinotoides*) Masi, 1925 (partim; fide Martens 1984)

Syn.: *Manuelcypris* Yoo *et al.*, 2017

*Heterocypris affinis* Klie, 1930: NT

*Heterocypris anitae* Battish, 1981: OL

*Heterocypris antillensis* Broodbakker, 1982: NT

*Manuelcypris antillensis* (Broodbakker, 1982) Yoo *et al.* 2017

*Heterocypris arorai* Battish, 1981: OL

*Heterocypris aurea* (Sars, 1895) Sars 1924a: AT, NA, OL, PA

*Cyprinotus aureus* Sars, 1895

*Heterocypris auricularis* Zhai & Zhao, 2014: PA

    Syn.: *Heterocypris sanukiensis* Okubo, 2004 (nom. nud., no type material designated) (fide Zhai & Zhao 2014)

*Heterocypris balnearia* (Moniez, 1893) Klie 1939b: PA

*Cypris balnearia* Moniez, 1893

*Heterocypris barbara* (Gauthier & Brehm, 1928) Margalef 1948: PA

*Cyprinotus barbarus* Gauthier & Brehm, 1928

    Syn.: *Cyprinotus barbarus inermis* Gauthier, 1928 (fide Martens *et al.* 2002)

    Syn.: *Heterocypris turcica* Schäfer, 1952 (fide Martens *et al.* 2002)

    Syn.: *Heterocypris rostrata* Beldescu, 1961 (fide Martens *et al.* 2002)

    Syn.: *Heterocypris bulgarica* Sywula, 1967 (fide Martens *et al.* 2002)

    Syn.: *Heterocypris vitrea* Sywula, 1967 (fide Martens *et al.* 2002)

    Syn.: *Heterocypris nurriensis* Tagliasacchi Masala, 1969 (fide Martens *et al.* 2002)

    Syn.: *Heterocypris takedai* Okubo, 1973 (fide Martens & Savatenalinton 2011)

    Syn.: *Heterocypris erikae* Petkovski & Keyser, 1995 (fide Martens *et al.* 2002)

*Heterocypris bhatiae* Battish, 1981: OL

*Heterocypris bogotensis* Roessler, 1982: NT

- Pseudocandona parvula* (Sars, 1926) Martens & Savatenalinton 2011: NA, NT  
    *Candona parvula* Sars, 1926  
    Syn.: *Candona exilis* Furtos, 1933 (fide Karanovic 2007)
- Pseudocandona pedropalensis* Méhes, 1914 **comb. nov.**: NT  
    *Candona pedropalensis* Méhes, 1914
- Pseudocandona pratensis* (Hartwig, 1901) Danielopol 1980: PA  
    *Candona pratensis* Hartwig, 1901  
    Syn.: *Candona compressa* sensu Kaufmann 1900 (fide Meisch 2000)  
    Syn.: *Candona pubescens* sensu G.W. Müller 1900 (fide Meisch 2000)
- Pseudocandona pseudosetosa* Mazepova, 1990: PA
- Pseudocandona pumilis* Würdig & Pinto, 1999: NT
- Pseudocandona punctata* (Furtos, 1933) Swain 1995: NA  
    *Candona punctata* Furtos, 1933
- Pseudocandona regisnikolai* Karanovic & Petkovski, 1999: PA
- Pseudocandona renalis* Mazepova, 1982: PA
- Pseudocandona renoensis* (Gutentag & Benson, 1962) Martens & Savatenalinton 2011: NA, PA  
    *Candona renoensis* Gutentag & Benson, 1962
- Pseudocandona rostrata* (Brady & Norman, 1889) Carbonnel 1969: NA, PA  
    *Candona rostrata* Brady & Norman, 1889
- Pseudocandona sarsi* (Hartwig, 1899) Meisch *et al.* 1990: PA  
    *Candona sarsi* Hartwig, 1899  
    Syn.: *Candona dentata* G.W. Müller, 1900 (fide Meisch 2000)
- Pseudocandona saxatilis* Bronstein, 1947: PA
- Pseudocandona schmorditzi* Fuhrmann & Goth, 2011: PA
- Pseudocandona scita* Mazepova, 1982: PA
- Pseudocandona semicognita* (Schäfer, 1934) Griffiths 1995: PA  
    *Candona semicognita* Schäfer, 1934
- Pseudocandona setosa* Bronstein, 1947: PA
- Pseudocandona setosa setosa* Bronstein, 1947
- Pseudocandona setosa abyssalis* Mazepova, 1990
- Pseudocandona slavei* Pekovski, 1969: PA
- Pseudocandona stagnalis* (Sars, 1890) Meisch & Broodbakker 1993: NA, PA  
    *Candona stagnalis* Sars, 1890  
    Syn.: *Candona zenkeri* Sars, 1890 (fide Klie 1938a)  
    Syn.: *Candona ambigua* Scott, 1891 (fide Klie 1938a)  
    Syn.: *Candona rara* G.W. Müller, 1900 (fide Klie 1938a)  
    Syn.: *Candona quadrata* Alm, 1914 (fide Klie 1938a)  
    Syn.: *Candona stagnalis* var. *longisetosa* Furtos, 1933 (fide Delorme 1970)

*Pseudocandona sucki* (Hartwig, 1901) Danielopol 1980: PA  
    *Candona sucki* Hartwig, 1901  
    Syn.: *Candona compressa* sensu Sars 1925 (fide Sywula 1974)  
*Pseudocandona tenuirostris* Hiruta & Mawatari, 2013: PA  
*Pseudocandona triquetroides* (Sywula, 1974) Meisch 1996: PA  
    *Candona triquetroides* Sywula, 1974  
*Pseudocandona tuberculata* Bronstein, 1947: PA  
*Pseudocandona tuberculata tuberculata* Bronstein, 1947  
*Pseudocandona tuberculata distorta* Mazepova, 1990  
*Pseudocandona tuberculata huluguneica* Mazepova, 1990  
*Pseudocandona valosa* Mazepova, 1982: PA  
*Pseudocandona valosiformis* Mazepova, 1990: PA  
*Pseudocandona werestschagini* (Bronstein, 1930) Bronstein 1947: PA  
    *Metacandona werestschagini* Bronstein, 1930

***Pseudocypretta* Klie, 1932**

\**Pseudocypretta maculata* Klie, 1932: OL

***Pseudocypridopsis* Karanovic, 1999**

\**Pseudocypridopsis clathrata* (Klie, 1937) Karanovic 1999: PA  
    *Cypridopsis clathrata* Klie, 1937  
*Pseudocypridopsis hartmanni* Petkovski et al., 2009: PA  
*Pseudocypridopsis petkovskii* Karanovic, 2000: PA  
*Pseudocypridopsis sywulai* Petkovski et al., 2009: PA

***Pseudocypris* Daday, 1910**

*Pseudocypris acuta* (G.W. Müller, 1914) McKenzie 1971: AT  
    *Cypris acuta* G.W. Müller, 1914  
    Syn.: *Pseudocypris testudo* Sars, 1924 (fide Martens 1990b)  
\**Pseudocypris bouvieri* Daday, 1910: AT  
*Pseudocypris circularis* Sars, 1924: AT  
*Pseudocypris expansa* Sars, 1924: AT  
*Pseudocypris gibbera* Sars, 1924: AT  
*Pseudocypris patialaensis* Battish, 1977: OL  
*Pseudocypris spinosa* (Methuen, 1910) McKenzie 1971: AT  
    *Cypris spinosa* Methuen, 1910  
*Pseudocypris triquetra* Sars, 1924: AT

***Pseudolimnocythere* Klie, 1938**

*Pseudolimnocythere hartmanni* Danielopol, 1979: PA  
\**Pseudolimnocythere hypogaea* Klie, 1938: PA

***Pseudostrandesia* Savatenalinton & Martens, 2009**

*Pseudostrandesia calapanensis* (Tressler, 1937) Savatenalinton & Martens 2009a: OL, PA  
    *Strandesia calapanensis* Tressler, 1937  
    Syn.: *Strandesia uenoi* Klie, 1938 (fide Savatenalinton & Martens 2010)  
*Pseudostrandesia gaetani* Savatenalinton & Martens, 2010: OL  
*Pseudostrandesia mamarilorum* (Victor & Fernando, 1981) Savatenalinton & Martens 2009a: OL  
*Pseudostrandesia mamarilorum mamarilorum* (Victor & Fernando, 1981) Savatenalinton & Martens 2009a  
    *Strandesia mamarilorum mamarilorum* Victor & Fernando, 1981  
*Pseudostrandesia mamarilorum sumatrana* (Victor & Fernando, 1981) Savatenalinton & Martens 2009a  
    *Strandesia mamarilorum sumatrana* Victor & Fernando, 1981

*Pseudostrandesia ovata* Savatenalinton & Martens, 2010: OL

*Pseudostrandesia phetchabunensis* Savatenalinton & Martens, 2010: OL

\**Pseudostrandesia striatoreticulata* (Klie, 1932) Savatenalinton & Martens 2009a: OL

*Strandesia striatoreticulata* Klie, 1932

*Pseudostrandesia thailandensis* Savatenalinton & Martens, 2010: OL

***Psittocythere* Hobbs & Walton, 1975**

\**Psittocythere psitta* Hobbs & Walton, 1975: NA

***Psychrodromus* Danielopol & McKenzie, 1977**

*Psychrodromus betharrami* Danielopol & Baltanás, 1993: PA

*Psychrodromus fontinalis* (Wolf, 1920) Danielopol & McKenzie 1977: PA

*Ilyodromus fontinalis* Wolf, 1920

\**Psychrodromus olivaceus* (Brady & Norman, 1889) Danielopol & McKenzie 1977: PA

*Erpetocypris olivacea* Brady & Norman, 1889

*Psychrodromus peristericus* (Petkovski, 1959) Danielopol & McKenzie 1977: PA

*Ilyodromus peristericus* Petkovski, 1959

*Psychrodromus robertsoni* (Brady & Norman, 1889) Danielopol & McKenzie 1977: PA

*Erpetocypris robertsoni* Brady & Norman, 1889

*Psychrodromus tunisicus* Zaibi et al., 2013: PA

*Psychrodromus turcicus* (Hartmann, 1964) Danielopol & McKenzie 1977: PA

*Ilyodromus turcicus* Hartmann, 1964

***Ramotha* Martens, 1992**

*Ramotha capensis* (G.W. Müller, 1908) Martens 1992: AT

*Cypris capensis* G.W. Müller, 1908

*Ramotha corpulenta* (Sars, 1895) Martens 1992: AT

*Cypris corpulenta* Sars, 1895

*Ramotha crassa* (Klie, 1939) Martens 1992: AT

*Strandesia crassa* Klie, 1939

    Syn.: *Cypris dromedarius* Fischer, 1851 (fide G.W. Müller 1912)

    Syn.: *Eucypris bouilloni* Kiss, 1959 (fide Martens 1992)

*Ramotha curtisae* Martens, 1992: AT

\**Ramotha hirta* (Sars, 1924) Martens 1992: AT

*Eucypris hirta* Sars, 1924

    Syn.: *Cypris corpulenta* sensu G.W. Müller, 1908 (fide Martens 1992)

*Ramotha kenyensis* (Lindroth, 1953) Martens 1992: AT

*Eucypris kenyensis* Lindroth, 1953

*Ramotha montana* (Lindroth, 1953) Martens 1992: AT

*Eucypris montana* Lindroth, 1953

    Syn.: *Eucypris hirta* sensu Klie 1944 (fide Martens 1992)

*Ramotha producta* (Sars, 1924) Martens 1992: AT

*Eucypris producta* Sars, 1924

*Ramotha purcelli* (Sars, 1924) Martens 1992: AT

*Eucypris purcelli* Sars, 1924

*Ramotha trichota* (G.W. Müller, 1908) Martens 1992: AT

*Cypris trichota* G.W. Müller, 1908

*Ramotha trigona* (Sars, 1895) Martens 1992: AT

*Cypris trigona* Sars, 1895

***Renaudcypris*** McKenzie, 1980

\**Renaudcypris gorongae* McKenzie, 1980: AU

*Renaudcypris luzonensis* Wouters, 1986: OL

*Renaudcypris natans* Hartmann, 1984: PAC

*Renaudcypris wolffi* (Harding, 1962) McKenzie 1980: PAC

*Pontoparta wolffi* Harding, 1962

***Repandocypris*** Halse & McRae, 2004

\**Repandocypris austinensis* Halse & McRae, 2004: AU

*Repandocypris gleneagles* Halse & McRae, 2004: AU

***Reticypris*** McKenzie, 1978

*Reticypris clava* De Deckker, 1981: AU

*Reticypris dedeckkeri* McKenzie, 1978: AU

\**Reticypris herbsti* McKenzie, 1978: AU

*Reticypris kurdimurka* De Deckker, 1981: AU

*Romecytheridea longior* Wouters & Martens, 1999: AT

*Romecytheridea plegma* Wouters & Martens, 2001: AT

*Romecytheridea tenuisculpta* (Rome, 1962) Wouters 1988: AT

*Haplocytheridea tenuisculpta* Rome, 1962

***Rudjakoviella*** Triebel, 1973

Nom. nov. pro *Xenocypris* Triebel, 1962 nec Günther, 1868 (genus of fish) (fide Malz 1973)

\**Rudjakoviella prolongata* (Triebel, 1962) Triebel 1973: NT

*Xenocypris prolongata* Triebel, 1962

Syn.: *Xenocypris procera* Triebel, 1962 (nom. nud.) (fide Kempf 1980a)

***Rugosuscandona*** Külkölüoğlu et al., 2017

\**Rugosuscandona scharfi* Külkölüoğlu et al., 2017: NA

***Sagittocythere*** Hart, 1962

\**Sagittocythere barri* (Hart & Hobbs, 1961) Hart 1962: NA

*Entocythere barri* Hart & Hobbs, 1961

*Sagittocythere stygia* Hart & Hart, 1966: NA

***Sanyuania*** Zhao & Han, 1980

Type species: *Sanyuania psaronius* Zhao & Han, 1980 (marine fossil species)

*Sanyuania segersi* Savatenalinton & Martens, 2009: OL

***Sarscypridopsis*** McKenzie, 1977

\**Sarscypridopsis aculeata* (Costa, 1847) McKenzie 1977: AT, AU, NA, NT, PA

*Cypris aculeata* Costa, 1847

    Syn.: *Cypris aculeata* Lilljeborg, 1853 (fide Alm 1915)

    Syn.: *Potamocypris gregaria* Sars, 1895 (fide Sywula 1966)

    Syn.: *Cypridopsella granulata* Sars, 1903 (fide Sywula 1966)

    Syn.: *Cypridopsis triquetra* G.W. Müller, 1908 (fide Martens 1984)

    Syn.: *Cypridopsis spinifera* Sars, 1924 (fide Martens *et al.* 1996)

    Syn.: *Cypridopsis obstinata* Barclay, 1968 (fide Meisch 2000)

*Sarscypridopsis brevis* (Sars, 1924) Martens 1984: AT

*Cypridopsis brevis* Sars, 1924

*Sarscypridopsis clavata* (Sars, 1924) Martens 1984: AT

*Cypridopsis clavata* Sars, 1924

*Sarscypridopsis echinata* (G.W. Müller, 1908) McKenzie 1977: AT

*Cypridopsis echinata* G.W. Müller, 1908

*Sarscypridopsis elizabethae* (Sars, 1924) Martens 1984: AT

*Cypridopsis elizabethae* Sars, 1924

*Sarscypridopsis glabrata* (Sars, 1924) Martens 1984: AT

*Cypridopsis glabrata* Sars, 1924

*Sarscypridopsis hirsuta* (Sars, 1924) Martens 1984: AT

*Cypridopsis hirsuta* Sars, 1924

*Sarscypridopsis katesae* (Hartmann, 1957) Martens 1984: AT

*Cypridopsis katesae* Hartmann, 1957

*Sarscypridopsis lanzarotensis* (Mallwitz, 1984) Meisch & Broodbakker 1990: PA

*Cypridopsis lanzarotensis* Mallwitz, 1984

*Sarscypridopsis ochracea* (Sars, 1924) McKenzie 1977: AT, AU, OL

*Cypridopsis ochracea* Sars, 1924

*Sarscypridopsis punctata* (Sars, 1924) Martens 1984: AT

*Cypridopsis punctata* Sars, 1924

*Sarscypridopsis pyramidata* (Sars, 1924) Martens 1984: AT

*Cypridopsis pyramidata* Sars, 1924

*Sarscypridopsis reniformis* (Sars, 1924) Martens 1984: AT

*Cypridopsis reniformis* Sars, 1924

*Sarscypridopsis sarsi* (Klie, 1935) Martens 1984: AT

    Nom. nov. pro *Cypridopsis tumidula* Sars, 1924 nec Sars, 1910

*Cypridopsis sarsi* Klie, 1935

*Sarscypridopsis striolata* (Sars, 1924) McKenzie 1977: AT

*Cypridopsis striolata* Sars, 1924

*Sarscypridopsis tonsa* (Sars, 1924) Martens 1984: AT

*Cypridopsis tonsa* Sars, 1924

*Sarscypridopsis trigonella* (Sars, 1924) Martens 1984: AT

*Cypridopsis trigonella* Sars, 1924

***Sarsicytheridea*** Athersuch, 1982

Type species: *Cythere bradii* Norman, 1865 (marine species)

Syn.: *Cytheridea* sensu Sars 1925 (fide Athersuch *et al.* 1989)

*Sarsicytheridea punctillata* (Brady, 1865) Athersuch 1982: PA

*Cytheridea punctillata* Brady, 1865

Syn.: *Cyprideis proxima* Sars, 1866 (fide Athersuch *et al.* 1989)

***Saurocythere*** Hobbs III, 1969

\**Saurocythere rhipis* Hobbs III, 1969: NA

***Schellencandona*** Meisch, 1996

*Schellencandona belgica* (Klie, 1937) Meisch 1996: PA

*Candona belgica* Klie, 1937

*Schellencandona insueta* (Klie, 1938) Meisch 1996: PA

*Candona insueta* Klie, 1938

\**Schellencandona schellenbergi* (Klie, 1934) Meisch 1996: PA

*Candona schellenbergi* Klie, 1934

*Schellencandona simililampadis* (Danielopol, 1978) Meisch 1996: PA

*Pseudocandona simililampadis* Danielopol, 1978

*Schellencandona tea* Karanovic & Lee, 2012: PA

*Schellencandona triquetra* (Klie, 1936) Meisch 1996: PA

*Candona triquetra* Klie, 1936

*Schellencandona yakushimaensis* Smith & Kamiya, 2006: PA

***Schornikovdona*** Külköylüoğlu *et al.*, 2017

\**Schornikovdona bellensis* Külköylüoğlu *et al.*, 2017: NA

***Sclerocypris*** Sars, 1924

Syn.: *Bharatcypris* Battish, 1978 (fide Martens & Coomans 1990)

*Sclerocypris bhatiai* Jain, 1979: OL

*Sclerocypris bicornis* (G.W. Müller, 1900) Lindroth 1953: AT

*Cypris bicornis* G.W. Müller, 1900

Syn.: *Eucypris elongata* Spandl, 1924 (fide Martens & Coomans 1990)

\**Sclerocypris clavularis* Sars, 1924: AT

Syn.: *Eucypris capensis* Daday, 1910 (fide Martens & Coomans 1990)

*Sclerocypris coomansi* Martens, 1986: AT

*Sclerocypris dayae* Martens, 1988: AT

*Sclerocypris dedeckkeri* Martens, 1988: AT

*Sclerocypris demoori* Martens, 1991: AT

*Zonocypris uniformis* Rome, 1962: AT

***Species excluded from the alphabetic checklist***

Species excluded from the alphabetic checklist by the taxonomic filter (Müller 1912; see ‘Material and methods’ for more details), neither reassessed nor redescribed after 1912. Additional dubious species, insufficiently described and therefore currently unrecognizable, often unrecorded since their first description, and *nomina nuda* are also included.

*Argentocypris labyrinthica* (Cusminsky & Whatley, 1996) Díaz & Martens 2014: NT

*Eucypris labyrinthica* Cusminsky & Whatley, 1996

        Described from juveniles (fide Díaz & Martens 2014).

*Argentocypris virgata* (Cusminsky & Whatley, 1996): NT

*Eucypris virgata* Cusminsky & Whatley, 1996

Described from juveniles (fide Díaz & Martens 2014).

*Candona albida* (Dana, 1849) Dana 1852: NT

*Cypris albida* Dana, 1849

Müller 1912: 234, under *Cypridarum genera dubia et species dubiae*.

Not a *Candona*, because Dana (1852) illustrated antennal natatory setae, the latter being absent from all species of the subfamily Candoninae.

*Candona bertrandi* (Margalef, 1958) Löffler 1967: PA

*Typhlocypris bertrandi* Margalef, 1958

Insufficiently described, unrecorded since first described. Possibly a synonym of either *Candona neglecta* Sars, 1890 or *Candona lindneri* Petkovski, 1969.

*Candona claudiopolitana* (Daday, 1900) G.W. Müller 1912: PA

*Eucandona claudiopolitana* Daday, 1900

Insufficiently described.

*Candona claviformis* (Brady & Norman, 1889) Norman & Brady 1909: PA

*Candona candida* var. *claviformis* Brady & Norman, 1889

Müller 1912: 148, listed under *Candona* sp. Not described.

Not in the faunal synopses of Henderson (1990) and Meisch (2000).

*Candona eleonorae* Ponzi, 1956: PA

Insufficiently described, possibly identical to *Neglecandona neglecta* (Sars, 1887).

*Candona granulata* Daday, 1893: PA

Müller 1912: 135, marked with a '?', and treated as a synonym of *Candona candida*.

*Candona hungarica* (Daday, 1900) G.W. Müller 1912: PA

*Eucandona hungarica* Daday, 1900

Unrecognizable species, possibly identical to *Pseudocandona marchica* (Hartwig, 1899).

*Candona lactea* Baird, 1850: PA

Müller 1912: 147, larva?

*Candona lucens* (Baird, 1835) Baird 1850: PA

*Cypris lucens* Baird, 1835

Müller 1912: 135, listed under *Candona candida* as ?1850 *C. lucens*, W. Baird.

*Candona similis* Baird, 1845: PA

Müller 1912: 148, larva?

*Candona zetlandica* (Brady, 1868) Norman & Brady 1909: PA

*Cytheridea zetlandica* Brady, 1868

Müller 1912: 135, listed under *Candona candida* as ?1868 *Cytheridea zetlandica* G.S. Brady.

*Chlamydotheca bennelong* (King, 1855): AU

*Cypris bennelong* King, 1855

Müller 1912: 221, juvenile?

*Chlamydotheca brasiliensis* (Lubbock, 1855) Brady 1886b: NT

*Cypris brasiliensis* Lubbock, 1855

Müller 1912: 235, listed under *Cypridarum genera dubia and species dubiae*.

*Cyclocypris castanea* Brady, 1913: AT

Insufficiently described. Unrecorded since first described.

*Cyclocypris pantherina* (Fischer, 1851) Kaufmann 1900: PA

*Cypris pantherina* Fischer, 1851

Müller 1912: 127–128, = *Cyclocypris laevis* (partim); = *Cyclocypris ovum* (partim).

*Cyclocypris scutigera* (Fischer, 1851) Kaufmann 1900: PA

*Cypris scutigera* Fischer, 1851

Müller 1912: 127–128, = *Cyclocypris laevis* (partim); = *Cyclocypris ovum* (partim).

- Cypris lepidula* (Koch, 1837) Brady & Norman 1889: PA  
    *Cypris lepidula* Koch, 1837  
        Müller 1912: 127–128, as a syn. with a ‘?’ under both *Cyclocypris laevis* and *Cyclocypris ovum*.  
        Unrecorded since 1837.
- Cypridopsis salina* (Brady, 1907) G.W. Müller 1912: AT  
    *Proteocypris salina* Brady, 1907  
        Accepted by Müller 1912, but unrecorded since 1907, not in Martens (1984).
- Cypricercus affinis* Daday, 1900: AU (New Guinea)  
    Müller 1912: 220, accepted species, but unrecorded since 1900.
- Cypridopsis hartmanni* Purasjoki, 1981: PA  
    Nom. nud., fide Kempf 1997a.
- Cypridopsis werneri* Brehm, 1928: PA  
    Uncertain species, insufficiently described. Unrecorded since 1928.
- Cypridopsis yallahensis* (Baird, 1862) Daday 1905: NT  
    *Cypris yallahensis* Baird, 1862  
        Uncertain species; *incertae sedis*, fide Martens & Behen 1994.
- Cyprinotus americanus* Cushman, 1905: NA  
    Müller 1912: 220, insufficiently described and unrecorded since first described.
- Cypris altissima* Chambers, 1877: NA  
    Müller 1912: 220, insufficiently described and unrecorded since first described.
- Cypris joanna* Baird, 1835: PA  
    Müller 1912: 236, insufficient description of a known species?
- Cypris kumari* (Arora, 1931) McKenzie 1972: OL  
    *Eurycypris kumari* Arora, 1931  
        Uncertain species, insufficiently described.
- Cypris matthaii* (Arora, 1931) McKenzie 1972: OL  
    *Eurycypris matthaii* Arora, 1931  
        Uncertain species, insufficiently described.
- Cypris protubera* Victor & Fernando, 1978: OL  
    Uncertain species, insufficiently described.
- Cypris puertoricensis* Ferguson, 1967: NT  
    Uncertain species, insufficiently described.
- Cypris rubida* Zaddach, 1844: PA  
    Müller 1912: 229, insufficient description of a known species?
- Cypris tessellata* Fischer, 1851: PA  
    Müller 1912: 231, insufficient description; juvenile?
- Cypris vitiensis* Dana, 1852: PAC  
    Müller 1912: 233, uncertain species. Unrecorded since its original description.
- Darwinula managuensis* Swain & Gilby, 1965: NT  
    Rossetti & Martens 1998: insufficiently described, doubtful species.
- Darwinula yaquensis* Swain, 1967: NA  
    Rossetti & Martens 1998: insufficiently described, doubtful species.
- Entocythere insignipes* (Sars, 1926) Hoff 1942: NA  
    *Cytherites insignipes* Sars, 1926  
        Unrecorded since first described. Listed under ‘*Incetiae sedis*’ in Williams & Weaver (2018).
- Eucypris gibberula* (Koch, 1838) Daday 1900: PA  
    *Cypris gibberula* Koch, 1838  
        Müller 1912: 236, juvenile? Insufficient description of a known species?  
        Described from Germany, but not listed in Klie (1938).

- Eucypris halyi* (Brady, 1886) Daday 1910: AT, OL  
    *Cypris halyi* Brady, 1886  
        Müller 1912: 224, insufficiently described. With a “?” in Martens (1984).  
*Eucypris unifasciata* (Jurine, 1820) Daday 1900: PA  
    *Monoculus unifasciatus* Jurine, 1820  
        Kaufmann 1900: 213, an unrecognizable species.  
        Müller 1912: 232, insufficient description of a known species? Juvenile?  
*Fabaeformiscandona csikii* (Daday, 1901) Altınsaçlı & Griffiths 2002: PA  
    *Eucandona csikii* Daday, 1901  
        Insufficiently described, not recognizable with certainty.  
*Fabaeformiscandona detecta* (O.F. Müller, 1776) **comb. nov.**: PA  
    *Cypris detecta* O.F. Müller, 1776  
        Possibly identical with *F. protzi*; might be a juvenile.  
*Goniocypris triangulata* Huang, 1983: PA  
    Uncertain species.  
    G.W. Müller 1912: 398, on *G. mitra* Brady & Robertson, 1870: type species of the genus.  
    *Goniocypris* is a larva of a species of *Anodonta* (Unionidae, Mollusca).  
*Hemicypris kagawaensis* Okubo, 2004: PA  
    *Hemicypris kawagaensis* Okubo, 2004 (misspelling)  
        Nom. nud., no designation of type material.  
*Hemicypris okayamensis* Okubo, 2004: PA  
    *Hemicypris okayamensis* Okubo, 2004 (misspelling)  
        Nom. nud., no designation of type material.  
*Herpetocypris lucida* (Koch, 1838) Brady & Norman 1889: PA  
    *Cypris lucida* Koch, 1838  
        Müller 1912: 236, insufficient description of a known species?  
*Herpetocypris minnesotensis* (Herrick, 1887) Turner 1895: NA  
    *Cypris minnesotensis* Herrick, 1887  
        Müller 1912: 226, uncertain species and generic assignment. A species of *Dolerocypris*?  
*Herpetocypris telavivensis* Krampner, 1928: PA  
    Insufficiently described, with uncertain generic assignment.  
        Unrecorded since 1928.  
*Herpetocypris testudinaria* Cushman, 1908: NA  
    Müller 1912: 231, uncertain genus and species.  
        Unrecorded since its first description.  
*Ilyocypris bistrigata* (Jurine, 1820) Brady & Norman 1889: PA  
    *Monoculus bistrigatus* Jurine, 1820  
        Müller 1912: 154, listed with a “?” as a syn. of *I. bradyi*.  
        Kaufmann 1900: 343, listed with a “?” as a syn. of *I. gibba*.  
        Unrecorded since 1900.  
*Ilyocypris bituberculata* (Costa, 1847) Masi 1906: PA  
    *Cypris bituberculata* Costa, 1847  
        Insufficiently described, unrecorded since 1847.  
*Ilyocypris nipponica* Okubo, 2004: PA  
    Nom. nud., no designation of type material.  
*Ilyocypris sinuata* (Fischer, 1848) Brady & Norman 1889: PA  
    *Cypris sinuata* Fischer, 1848  
        Müller 1912: 154, listed with a “?” as a syn. of *I. bradyi*.  
        Kaufmann 1900: 23, unidentifiable.  
        Unrecorded since 1900.

*Ilyocypris strausii* (Plateau, 1868) G.W. Müller 1912: PA

*Cypris strausii* Plateau, 1868

Müller 1912: 154, listed with a ‘?’ in the synonymy of *Ilyocypris bradyi*.

Unrecorded since 1900.

*Plesiocypridopsis virescens* (Brady, 1902) Rome 1965: PA

*Cypridopsis (Candonella) virescens* Brady, 1902

Müller 1912: 194, with a ‘?’ in the list of synonyms of *Herpetocypris reptans*; juvenile?

*Potamocypris helicina* (Fischer, 1847) Daday 1900: PA

*Cypris helicina* Fischer, 1847

Müller 1912: 224, insufficient description of a known species?

*Pseudocandona dichliae* (Brehm, 1953) Meisch 2000: PA

*Candonia dichliae* Brehm, 1953

Insufficiently described and unrecognizable species (fide Meisch 2000).

*Pseudocandona ruttneri* (Brehm, 1953) Martens & Savatenalinton 2011: PA

*Candonia ruttneri* Brehm, 1953

Insufficiently described and unrecognizable species (fide Meisch 2000).

*Strandesia marina* Hartmann, 1965: NA

Insufficiently described and unrecorded since first described.

*Strandesia tonolli* Moroni, 1961: PA

Nom. nud. (fide Pieri *et al.* 2015).

## Acknowledgements

The present list is largely an expanded version of the one presented by Martens & Savatenalinton (2011). The latter author is here acknowledged for her contribution to this earlier version of the present list. We are grateful to Tadeusz Namiotko and an anonymous reviewer for their very helpful comments and suggestions. Alain Faber, head of the National Natural History Museum of Luxembourg, is thanked for his constant support of the first author’s (CM) research activities. We thank Danny Eibye-Jacobsen and Kristiaan Hoedemakers of EJT for their much-appreciated comments and suggestions for improvement of the manuscript.
